ABOUT US
WHAT WE DO

Kathea is a value-added distributor of Voice, Audio Visual, Video Conferencing and Workspace Management Products, Solutions and Services.

Founded in 1998, Kathea has a proud history of making markets for manufacturers, through focused and specialized distribution, in South Africa and Africa. Kathea provides products and services through a partner community of 800 resellers and employs approximately 55 staff with offices in Johannesburg, Cape Town and Port Elizabeth.

VOICE

We distribute a range of devices to match enterprise requirements, contact centres, SMEs and hotels. These include a wide range of phones, headsets and conferencing phones.

VIDEO & AUDIO VISUAL

We provide video conferencing end-points and infrastructure (cloud or on prem) as well as audio visual products to fully equip your boardrooms, classrooms and auditoriums.

WORKSPACE MANAGEMENT

Our specialised Workspace Management solutions range from complex enterprise-grade solutions to agile and easily installed mid-size corporate requirements.

Kathea proudly represents some of the top brands in the communication, collaboration, audio visual and workspace technology arenas.

We offer high value-add brand representation with deep skills and service competence, combined with efficient distribution to over 700 partners.

EXPERIENCE

Over 24 years of experience in "making and serving markets" for brands such and Jabra, Polycom, Extron and many others.

AWARDS

Our multiple awards across various fields over 24 years serve as further evidence of how Kathea sets itself apart.

PRESENCE

We are well represented in all 3 of the major centers in South Africa – Johannesburg, Cape Town and Port Elizabeth.

PARTNERSHIPS

We are committed to long term partnerships with all of the brands and channel partners that we work with.

SERVICES
SERVICE OFFERINGS

BRANDS
BRANDS WE REPRESENT

SERVICE LEVEL AGREEMENTS

These SLA's enable the end user to experience high quality, reliable solutions that come with maintenance and reporting services which allow for uninterrupted communication between various locations, without relying heavily on internal resources in order to achieve this. Custom SLA's are also created to meet particular business requirements.

INSTALLATIONS

Kathea assists Partners with End Point and Infrastructure installations, providing experienced engineers and install technicians to carry out installations at a customer's facility. Installations also include configuration and orientation of the equipment to the highest standard. Testing of the equipment is key, and this will be done thoroughly to ensure full functionality of the systems.

OUT-OF-WARRANTY SUPPORT

Our highly skilled post-sales support teams are available to try and assist where products are out of warranty.

IN-WARRANTY SUPPORT

We facilitate all claims against manufacturer warranties for products purchased through us. This is done through an experienced Service Centre Team in the Johannesburg offices.

RENTAL SOLUTIONS

We have partnered with one of the largest and most reputable privately owned financial institutions in the country in order to provide our Partners with tailor-made rental solutions to meet the specific and individual needs of their customers.

VIDEO EXTENDERS & VIDEO SPLITTERS

DESIGNED TO

Do away with bulky cables and allows a neat, and convenient installation

DESIGNED TO

Provide an easy method for mounting devices in any location

DESIGNED TO

Push technology and design to the limit

DESIGNED TO

Be user-oriented and enhance durability

DESIGNED TO

Make presentations flow in medium-sized and large meeting rooms

DESIGNED TO

Be the perfect solution for anyone who needs to send one source of digital HD

Cat E Extender Wall Plate

- Powered at either the Transmitter or Receiver side
- Real EDID bypass, and HDCP key authentication
- Ideal solution for function rooms, museums and any environment that requires equipment or cabling to be kept hidden from public view

T-Lite Extender

- Slip-resistant grooves (helps prevent accidental drops)
- LED status lights
- Perfect for digital entertainment centers or any installation that requires superior HDMI video quality

HDBaseT Extender

- Ideal for meeting rooms, or any setting that requires high-quality HDMI video to be extended for great distances

HDBaseT 3.0 Transceiver

- Purpose-built for spaces that require long-distance
- High-quality
- Signal transmission with easy installation and non-stop operation, such as conference rooms, auditoriums, banquet halls and museums

4-Port 4K HDMI Spltter

- Full BYOD support
- Seamless Collaboration
- Wireless presentation made easy
- Simple one-click experience
- Tech-agnostic
- Enterprise ready

2-Port 4K HDMI Spllitter

- Connects one HDMI source to two HDMI displays at the same time
- HDMI (3D, Deep Color,4K); HDCP Compatible
- Long distance transmission - up to 15m (24 AWG)
- Supports max. data rate of 10.2 Gbps

ATEN
VIDEO SWITCHES

DESIGNED TO

Offer instant switching and has OSD display controls for video, audio, and systems configuration and info

DESIGNED FOR

Instant switching for a smooth video transition

DESIGNED TO

Enable simultaneous access to different HDMI A/V sources

DESIGNED TO

Offer an easy and affordable way to route any of 8 HDMI video sources

DESIGNED FOR

The futue of High-definition video switching

DESIGNED FOR

Meeting Rooms and educational spaces

4-Port HDMI Switch Daul Output

- 4-Port Dual View HDMI Switch offers an easy and affordable way to add HDMI capabilities to your home theater system by allowing you to switch easily between up to four HDMI A/V sources that are connected to up to two HDMI displays

4-Port 4K HDMI Switch

- Allows up to four HDMI A/V sources to be connected to one HDMI display
- HDMI (3D, Deep Colour, 4kx2k video
- Supports 340MHz brandwidth for ultrahigh 2kx2k video
- Quick and easy switching between HDMI sources via front panel pushbuttons, RS-232 or IR Remote control

8-Port HDMI Switch

- Allows up to eight HDMI sources to be connected to one HDMI display
- Quick and easy switching between HDMI sources via front panel pushbuttons or IR remote control
- Superior video quality - HDTV resolution of 480p, 720p, 1080i, 1080p (1920X1080); VGA, SVGA, SXGA, UXGA, and WUXGA(1920X1200)
- Built-in bi-directional RS-232 serial port for high-end system control

8x8 True 4K HDMI Matrix Switch

- Connects any of 4 HDMI sources to any of 4 HDMI displays
- Supports True 4K solutions up to 4096 x 2160 @60HZ (4:4:4)
- Multiple Control Methods - system management via front-panel pushbuttons, IR remote, RS-232 control, and Web GUI/Telnet via Ehernet connections
- HDMI (3D, Deep colour, 4K) and HDCP 2.2 compatible

4 x 4 4K HDMI Matrix Switch

- Connects any of 4 HDMI sources to any of 4 HDMI displays
- Supports 4K resolutions up to UHD (3820 X 2160) and DCI(4096 x 2160) with refresh rates of 30Hz (4:4:4) and 60Hz (4:2:0)
- Signaling rates up to 3.4 Gbits for flawless 4K ouput
- Multiple Control Methods - system management via front panel pushbuttons, IR remote and RS-232 control

True 4K Presentation Matrix

- Multiformat AV switching - switch among 1 HDBaseT, 2 HDMI, and 1 VGA inputs to 1 HDBASET and 1 HDMI outputs and support of audio DSP
- HDBase T-Lite technology - extends uncompressed AV, IR, RS-232, and power over one CAT 6/6a cable up to 70m
- Superior video quality - True 4K resolutions up to 4096 x 2160@60Hz (4:4:4) (HDMI) / 4096 x 2160@60Hz (4:2:0) (HDBaseT); HDR support
- Scaler - supports video upscaling to 4K for display A and downscaling to 1080p for Display B

ATEN
CONVERTERS & SCALERS

DESIGNED TO

Transmit high-definition video and audio

DESIGNED TO

Emulate and store the EDID of a video display

DESIGNED FOR

Easy and convenient way of converting VGA input signals to HDMI

DESIGNED FOR

Easy installation and non-stop operations, and enhanced durability

DESIGNED TO

Be an easy and convenient way of converting VGA

4K HDMI Converter

- Connect a USB-C enabled laptop or Smartphone which utilizes "DP Alt Mode" functionality to an HDMI compatible display using a single cable
- Supports resolutions up to 4K@60Hz (3840 x 2160 @60 Hz)
- Supports a long-distance connectivity of up to 2.7 meters
- Works with all major operating systems: Windows, OS X, and Android

4K HDMI EDID Emulator

- Automatically manages EDID communication between connected devices
- EDID Wizard - allows a user an easy way to manage EDID settings
- EDID mode selection - Default, Learning, Programming
- HDMI(3D, Deep Colour), HDCP compatible

VGA/Audio to HDMI Converter

- Converts VGA signals to HDMI output
- Scaler - a premium scaling engine that converts various input video resolutions into the display's native resolution, while adjusts picture ratio automatically for maximum viewing comfort
- Features a superior de-interlacer function for smooth video playback quality
- Supports analog/digital audio

True 4K HDMI/USB HDBasT 3.0 Transceiver

- Extends uncompressed True 4K HDMI signals up to 100m over a single Cat 6a cable with zero latency
- Compliant with HDBaseT 3.0 standards - transmits high-quality video, full range IR, bi-directional RS-232, Gigabit, Ethernet, independent stereo audio and USB 2.0 signals channel bypass
- Superior video quality - up o 4096 x 2160 @ 60Hz (4:4:4); HDR, HDR+, Dolby Vision supported
- Supports HDMI audio embedding/ de-embedding functions

VGA/Audio to HDMI Converter with Scaler

- Connects any of 4 HDMI sources to any of 4 HDMI displays
- Supports 4K resolutions up to UHD (3820 X 2160) and DCI(4096 x 2160) with refresh rates of 30Hz (4:4:4) and 60Hz (4:2:0)
- Signaling rates up to 3.4 Gbits for flawless 4K ouput
- Multiple Control Methods - system management via front panel pushbuttons, IR remote and RS-232 control

ATEN
ADAPTERS

DESIGNED TO

Connect HDMI inputs to VGA output displays

DESIGNED TO

To ensure high quality signal conversion

DESIGNED FOR

Connecting DisplayPort input to HDMI output displays

DESIGNED FOR

Easy installation and non-stop operations, and enhanced durability

DESIGNED TO

Emulate and store one set of the EDID

HDMI to VGA Adapter

- Converts HDMI signals to VGA output
- Superior video quality - up to 1920 x 1200, 1080P
- Supports wide screen formats
- Non-powered

4K Mini DisplayPort to HDMI

- Active adapter - features an advanced chip which ensures stable video signal conversion even when the video source does not support dual-mode DisplayPort (DP++)
- Supports VGS, SVGA, XGA, SXGA, UXGA, 1080p and resolutions up to 4K UHD
- Supports AMD Eyefinity Technology (Multi-screen setups)
- Audio supported

DisplayPort to HDMI Adapter

- Supports VGA, SVGA, XGA, SXGA, UXGA and resolutions up to 1080p (HDTV)
- Audio Supported
- No Software or driver installation required

4K DisplayPort to HDMI Active Adapter

- Active adapter - features an advanced chip which ensures stable video signal conversion even when the video source does not support dual-mode DisplayPort (DP++)
- Supports VGA, SVGA, XGA, SXGA, UXGA, 1080p and resolutions up to 4K UHD
- Supports AMD Eyefinity Technology (multi-screen stups)
- Audio supported

4K HDMI EDID Emulator Adapter

- Manages EDID communication between connected devices
- Effectively learns and saves the EDID from the connected HDMI display via single pushbutton and relays it to the video source
- Supports superior video quality up to 4096 x 2160 / 3840 x 2160 @60Hz (4:4:4) via EDID Learning Mode
- Compact and lightweight design

ATEN
AUDIO & DOCKING STATIONS

DESIGNED TO

Deliver decent sonic performance

DESIGNED FOR

Instant switching for a smooth video transition

DESIGNED TO

Help eliminate operation shutdown brought by fan malfuntion

DESIGNED TO

Enjoy stunning 4 video or a dual HD monitor setup

DESIGNED FOR

Save space, type comfortable and keep your laptop cool

6.5"Coaxial Ceiling LoudSpeaker

- Coaxial design with premium components: - 6.5"high output driver with rubber surround and heavy-duty voice coil (20mm dome tweeter)
- 80 - 20 kHz bandwidth with wide coverage for consistent, full-range coverage of the space while reducing the amount of the speakers needed
- Switchable for use as either an 8Ω low-impedance speaker or as part of a 70V/100V distributed loudspeaker system
- Ease of installation guaranteed with the magnetic grille, dog leg mounting system and cutout template

4"Coaxial Ceiling Loudspeaker

- Coaxial design with premium components (4"high output driver with rubber surround and heavy-duty voice coil, 20mm dome tweeter)
- 100 - 20 kHz bandwidth with wide coverage for sonsistent, full-range coverage of the space while reducing the amount of the speakers needed
- Switchable for use as either an 8Ω low-impedance speaker or as part of a 70V/100V distributed loudspeaker system
- Ease of installation guaranteed with the magnetic grille, dog leg mounting system and cutout template

60W Mono Hi-Z power Amplifier

- A high-output Class D power amp that delivers 60W of power to 70V or 100V distributed audio systems
- Built-in 2-band shelf EQ provids 6dB boost/ suppression of treble and bass control
- Power Saving Mode - The AP106 shuts down when no audio input higher than -50 dBu is detectable in 30 minutes and turns back on when a source reaches -30 dBu is detected
- Integrated protection - Amp shortcut, Amp output over/under-voltage, high frequency overload, and overtemperature protection

USB-C Multiport Dock

- Expands up to 13 devices instantly through a USB-C cable
- Supports USB power delivery 3.0 (PD3.0) for laptop charging up to 85W via USB-C PD power adapter-power profiles include 5V, 9V, 12V, 15V, 20V
- Supports single display output resolution up to 4K@30 (3840X2160@30Hz) on a single HDMI or dual display output at 1080p (1920X1080@60Hz)
- Compatible with Apple M1 chip devices; 1 x USB 3.2 Gen 1 Type-A port supports Battery Charging Specifications Revision 1.2 (BC 1.2) for fast-charging device

USB-C Multiport Dock

- Connects up to 10 devices instantly through a USB-C cable
- Provides Power Delivery Pass-through up to 60W after deductions of 15W used by the dock
- Supports 4K resolution on a single HDMI or DisplayPort display, and Dual 1080p ON A DisplayPort and an HDMI or VGA monitor
- Compatible with Apple M1 chip devices; 1 x USB 3.2 Gen 1 Type-A port supports Battery Charging Specification Revision 1.2 (BC 1.2) for Fast-Charging device

ATEN
CABLES

DESIGNED TO

Provide a quick and high quality cost effective solution

DESIGNED FOR

Fast, and Reliable data syncing performance

DESIGNED TO

Provide an uncompresses, all-digital interface for audio and video signals

DESIGNED TO

Provide an uncompressed, all-digital interface for audio and video signals

DESIGNED FOR

Provide an uncompressed, all-digital interface for audio and video signals

DESIGNED FOR

Provide an uncompressed, all-digital interface for audio and video signals

15M USB 3.2 Extender

- Supports USB 3.2 Gen1 specification (5Gbps)
- Ultra slim design and unique locker head design
- Daisy-chainable, maximum distance of up to 30m
- Additional power adapter included

10M USB 3.2 Extender

- Extends the USB signal from a USB Type-A PC/ laptop to a USB-C device 10m away
- Supports USB 3.2 Gen1 specifications of up to 5 Gbps data transfer rates
- Lightwieght, small enclosure with 2 screw holes on the USB-C female connector deliver enhanced flexibility and secure interconnection
- Plug-and-Play (no drivers needed)

2M True 4K HDMI Cable

- HDMI (3D, Deep Colour, 4K); HDCP 2.2 compliant
- Superior video quality - True 4K (4096 x x2160 @60Hz; 2840 x 2160 @60Hz 4:4:4)
- Gold -plated connectors for reliable transmissions
- Available in lengths from 1 to 5m

3M True 4K HDMI Cable

- HDMI (3D, Deep Colour, 4K); HDCP 2.2 compliant
- Superior video quality - True 4K (4096 x x2160 @60Hz; 2840 x 2160 @60Hz 4:4:4)
- Gold -plated connectors for reliable transmissions
- Available in lengths from 1 to 5m

5M True 4K HDMI Cable

- HDMI (3D, Deep Colour, 4K); HDCP 2.2 compliant
- Superior video quality - True 4K (4096 x x2160 @60Hz; 2840 x 2160 @60Hz 4:4:4)
- Gold -plated connectors for reliable transmissions
- Available in lengths from 1 to 5m

10M/20M True 4K HDMI Cable

- HDMI (3D, Deep colour, 4K); HDCP 1.4 compliant
- Superior video quality - up to 4K (4096 x 2160 @30Hz)
- Gold-plated connectors for reliable transmissions
- Available in lengths from 5 to 20m

ATEN
CABLES & PDU'S WITH SURGE PROTECTION

DESIGNED FOR

RGB video applications such as digital signage & supports video transmission

DESIGNED TO

Provide surge protection, prevents damage to your equipment

305M Low Skew Cat 5e

- Contains 305m/ 1000ft of low skew cable
- 350 MHz bandwidth
- Delay Skew: 1 ~ 350 MHz 20nS/100m Max
- Compatible with ATEN analog Cat 5 video extenders, KVM extenders, and Cat 5 KVM switches

Basic 1U PDU Surge Protector

- Surge Protection
- Space saving - 1U rack mount design
- IEEC or NEMA outlet models

BARCO
CLICKSHARE WIRELESS PRESENTATION

CLICKSHARE
WIRELESS PRESENTATION SYSTEMS

DESIGNED TO

Transform huddle & small meeting rooms into inspiring conference facilities

ClickShare CX-20

- Full BYOD support
- Remote collaboration
- Agnostic: works with any device, and UC&C technology and a wide range of AV peripheral
- Enhanced security
- Connected and cloud managed

DESIGNED TO

Seamless, wireless conferencing for small to medium meeting rooms

ClickShare CX-30

- Full BYOD support
- Collaborate remotely
- Full interactivity and moderation (available in future firmware update)
- Works with your device, your conferencing platform (UC&C) and a wide range of USB peripherals
- Enhanced security

DESIGNED TO

Bring wireless conferencing and remote collaboration to meeting rooms

ClickShare CX-50

- Full BYOD support
- Remote collaboration in highest quality
- Full interactivity and moderation (available in future firmware update)
- Agnostic: your laptop, your conferencing platform (UC&C) platform and a wide range of USB peripherals.
- HDMI input cable

DESIGNED TO

Make presentation flow in small, medium meetings rooms and huddle spaces

ClickShare C-5

- Full BYOD support
- Seamless content sharing with Button or Desktop App
- Enhanced security, connected and cloud-managed
- Easily share content from your device
- Seamless integration
- Boost Collaboration

DESIGNED TO

Make presentations flow in medium-sized and large meeting rooms

ClickShare C-10

- Full BYOD support
- Seamless Collaboration
- Wireless presentation made easy
- Simple one-click experience
- Tech-agnostic
- Enterprise ready

WORKSPACE
MANAGEMENT SOLUTIONS

WORKSPACE
BOOKING PLATFORM

Condeco by Eptura is the platform that puts you in control of your working days. You can easily find and reserve the spaces you need, and ensure that they'll be ready for you when you arrive. It's flexible working without the hassle.

Secure your Space in Seconds
Search for a space that meets your needs and book it for the time you need it with just a few clicks.

Take Control of your Day
Through a simple self-serve tool, you can book everything you need in moments, whether for today or weeks in advance.

Embrace Flexible Working
Make sure every day you visit the office is productive and stress-free.

Book in Three Ways
Find and book the workspaces you need in moments

On your Mobile
Search and book via the Condeco by Eptura app for iOS and Android

From Your Calendar
Bring Condeco into Microsoft Outlook with Smart Calendar.

On the Web
Get a more detailed view and advanced management from the online portal.

- Your whole day in one place (single screen view)
- Check-in with ease
- Find your ideal space
- Adjust bookings instantly
- Plan your work week
- Ensure everyone's safety
- Connect with co-workers

- Repeat meetings are taken care of (find the right place for your recurring meetings)
- Your automated Plan B (automatically updates meeting changes from your calendar)
- Collaborate with anyone, anywhere

- Effortless workspace management
- connect across locations and time zones
- guarantee service delivery
- Adapt to change
- Give visitors a warm welcome

CONDECO by eptura

Configure your desk Spaces with Ease

Condeco y Eptura supports fixed, flexible and bookable workspaces that suit every role and working schedule.

Fixed Workspaces

Can be permanently assigned to an employee, but can be released for others to use if the employee is absent.

Flexible Workspaces

Are assigned to an employee, but if that employee does not check-in on time, the desk is released for others to use.

Bookable Workspaces

can be booked by anyone who has been given access to the space.

Coordinate people, time and spaces

Neighborhoods. If teams need to sit together, Condeco by Eptura has them covered. Setting up neighborhoods mean certain groups of desks can only be booked by certain employees, so they know they'll be with the right people before they even arrive or can keep their work private.

Reservation rules. Put rules in place that ensure only the right people and teams can reserve certain spaces, and that selected users can get priority access.

Time limits. Set the maximum number of days employees can reserve in a week, and whether they can reserve certain types of space.

Set up Bespoke meeting Spaces

The specification of every type of space can be set up within Condeco by Eptura. Spaces can be self-serve managed or blind-managed, so that they're always used in the right way.

- **Self-serve**
  Where users can directly book the room
- **Managed**
  Where users can request a specific room
- **Blind-managed**
  Where users can make a request for a room
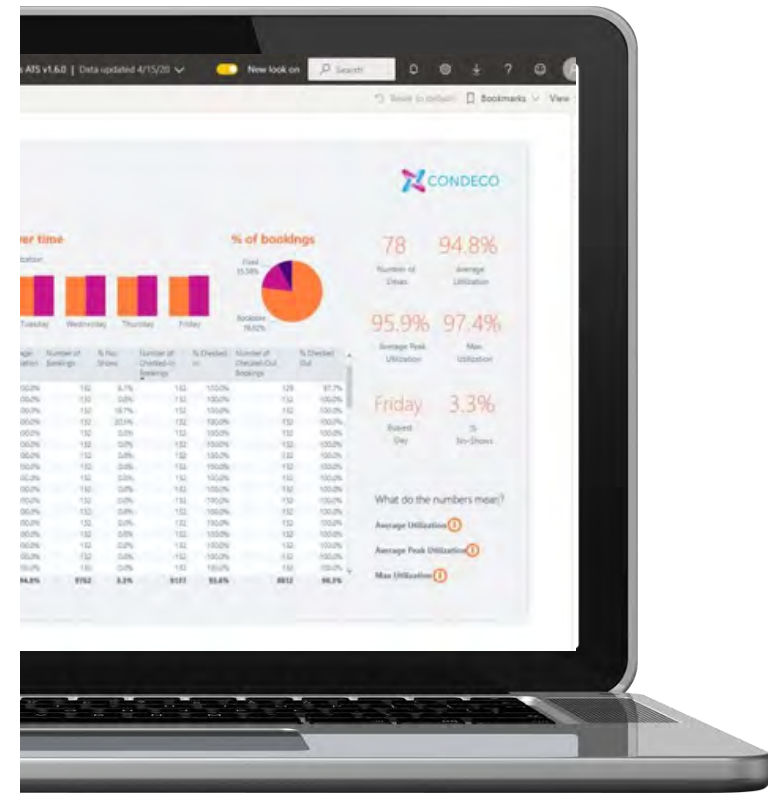

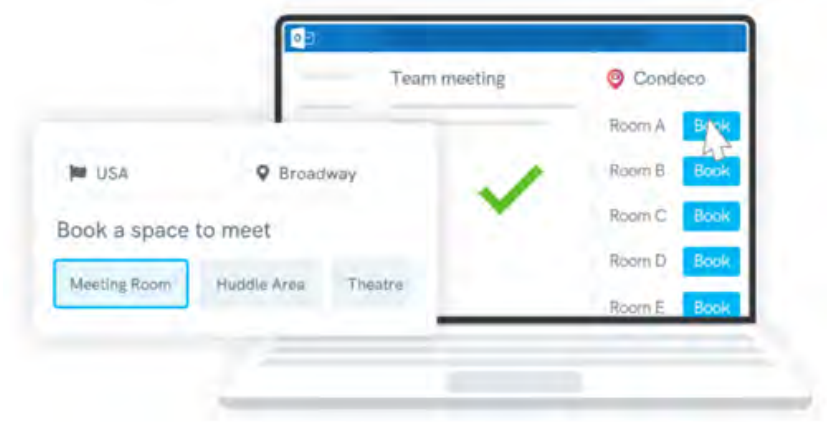

Learn How your Office Really Works

Use customizable reports that closely monitor workspace use, including who uses each space, no-show and check-in rates, and much more. Integrating with Microsoft Power BI can give you even more advanced data insights, enabling more informed decisions about how your workspaces can evolve.

Power BI

WORKSPACE
HARDWARE

Desk Booking Screen

Enhance your workspace experience with desk screens.

Check desk availability
Unsure if a desk is free for you to use? No problem. Clear LED status lights and a bright full-color display give you instant visibility of desk status, even from a distance.

Free up unused space
Your work doesn't have to be held back by no-shows and latecomers wasting desk space. Through Condeco desk screens, spaces can be released for use by someone else if a booker doesn't check in within a pre-defined timeframe.

Touch and go
With an RFID-enabled access card, you can scan into any desk screen and book, check in or check out in a matter of seconds.

Meeting Room Screen

Enhance your workspace experience with meeting room screens.

Check availability.
Get an at-a-glance view of when a room is booked and who booked it, and make your own booking for any available time from the screen itself.

Show meeting status.
See which rooms are available, booked or occupied with red, amber and green LED lights, visible from a distance for an instant status check.

Increase room usage.
No more wasted meeting space caused by no-shows. If the meeting host hasn't checked in for their booked time, Condeco automatically frees up the space for you to use instead.

End or extend.
If your meeting finishes early or is running over time, the screen can help you adjust in seconds. You can either release the room for others to book, or extend your booking if time is available.

Book instantly.
An RFID-enabled security card or six-digit PIN enables super-fast booking, check-in, check-out or extension, all from the touch screen.

DISPLAYS

CTOUCH RIVA
EDUCATION

The CTOUCH Riva is a super user-friendly touchscreen. As a true chameleon, it will find any kind of meeting experience. Easily upgrade the touchscreen to your needs. CTOUCH will support you with the perfect fit.

Make your Meetings come Alive

The way people work together is changing rapidly. This drives us to develop flexible solutions that fit any kind of meeting experience. The CTOUCH Riva is a super user-friendly touchscreen that brings the power of touch to any working environment. Easily share your content on the big screen, write the smartest ideas on the interactive whiteboard and inspire everyone in the room.

Easily upgrade with CTOUCH BRIX

The CTOUCH Riva is based on a modular platform. Called BRIX. It can be easily upgraded over time- according to the needs of the users- with CTOUCH Brix modules. Ready to dive into Microsoft Teams meetings? or want to bring Zoom into your meeting room? Simply upgrade with a CTOUCH BRIX module and you're set to go, without replacing the entire touchscreen. With CTOUCH Riva you are fully prepared for the modern workplace of the future!

Wi-Fi module:
- Add wireless internet to your screen
- Build-in hotspot function Bluetooth

Human Presence Detection module:
- Screen automatically turns on when you enter the room
- And off again when rooms are empty
- Saving money and our planet!

Fingerprint Scanner:
- Login and unlock your screen with your fingerprint
- Start preparing your meetings right away
- Protect your files from unwanted users

NFC Reader module:
- Easy login: tap your card and go!
- Lock your screen for unwanted users
- Reliable and safe

A true natural handwriting experience

Annotate, write and draw like never before due to TrueBeam Touch technology. It feels natural and smooth. Simply use your finger or a pen and write as fast as you can. Use your hand palm for easy erasing without switching tools. How convenient is that!

Triple S glass: smooth, stripeless and safe

Writing on the Triple S glass display feels very smooth and soft, leaving minimal stains behind. And don't be afraid of rough users as the safety glass can take a beating!

Excellent sound with the high end JBL® 80 Watt speakers

Amaze your audience and blow them away with the 80 Watt integrated JBL® speakers. They deliver Live-stage (virtual) Surround sound. Even in the back of the room, the sound is impressive, without the need for extra sound equipment.

Multiple connectors for easy screen sharing

The screen comes with multiple connectors for real-time screen sharing. With HDMI-out for example, you easily share content from your screen to multiple devices in the room. And to the USB-C port, you can connect any device with just a single cable. It transfers data, sound, touch and power. So, it can even charge your device while connected!

Optional modules: only pay for what you need!

Upgrade your CTOUCH Riva with these optional modules. Choose the ones that suit you best.

| TRUEBEAM TOUCH TECHNOLOGY | TRIPLE S GLASS | 80 WATT JBL SPEAKERS | OVER-THE-AIR-UPDATES | BRIX COMPATIBLE |

CTOUCH CANVAS
BUSINESS

The CTOUCH Canvas stands out in every meeting room! Its unique CTOUCHABLE™ design invites you to instantly touch the screen. Discover the ultra-fine pen-on-paper-like writing experience. It's designed for business and meets the highest security standards.

Take team collaboration to the next level

Advances in cloud collaboration, tooling, and conferencing systems are fast pacing each other. Want to get into flow with your team? The Canvas' unique CTOUCHABLE™ design invites you to interact with the content on the screen. From the coloured rubber and soft-touch textile frame to the touchable buttons and intuitive menu. It all works together to foster energizing meetings. Bring innovation and teamwork to life!

Easily upgrade with CTOUCH BRIX

The CTOUCH Canvas is a modular touchscreen. It can be upgraded over time with our collaboration solutions. We call them BRIX. Ready to dive into Microsoft Teams meetings? Or want to bring Zoom Rooms into your meeting space? Simply fit the CTOUCH Canvas with a BRIX module and you're set to go. With the CTOUCH Canvas you are prepared for the workplace of the future!

Ultra-fine writing experience

Write, sketch and annotate like never before! The optical bonded InGlass™ touch technology delivers you a high-precision pen-on-paper-like writing experience. Simply use the passive pen or your finger and write or erase as fast as you can.
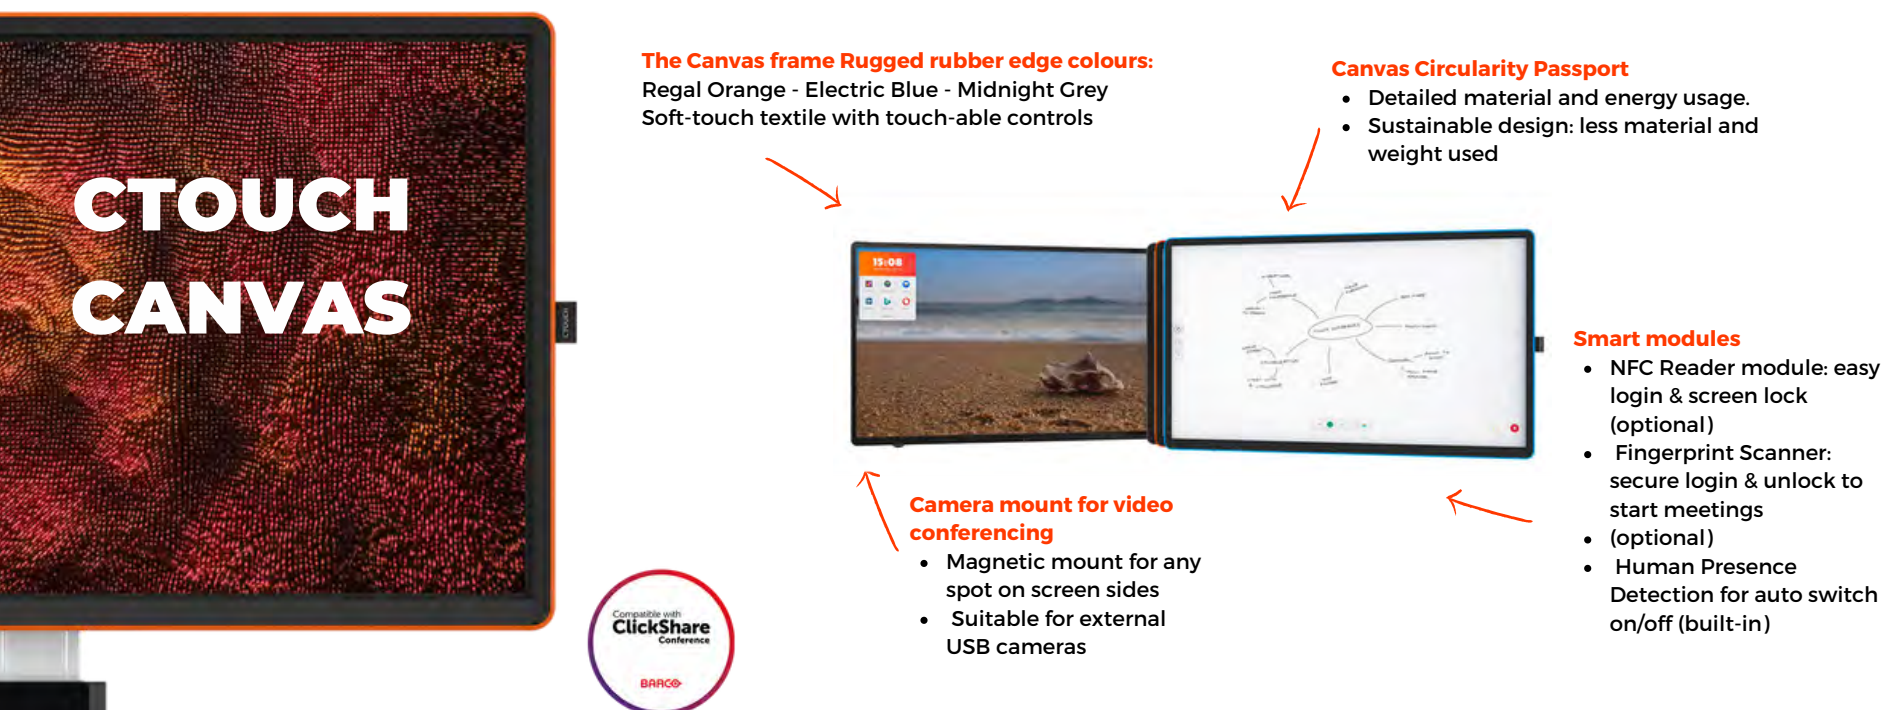

Security by design

The Canvas is designed for business-grade security. This is why it comes without an operating system. No software updates are needed. No data is stored on the display. And no apps can be installed that could leak your data or grant access.

Business connectivity & management

You are in full control! The USB-C port provides easy one-cable presenting for video, touch, charging (100W), and the internet. For management and local control, the RS232 interface and IP management are available. Want to integrate Canvas into your enterprise network?

Full-room audio with the integrated JBL® 80 Watt speakers and microphone array

Amaze your audience and immerse them with the JBL® speakers. They deliver Live-stage (virtual) Surround sound. Even in the back of the room the sound is impressive.

CTOUCH NEO
BUSINESS

The CTOUCH Neo, the easiest-to-us touchscreen ever. Walk up to the screen, pick one o four options and kick ff your session with just one touch. It's really that easy!

The easiest-to-use touchscreen in the world

Neo's highly intuitive interface features four apps on start up to choose from. Start with whiteboarding, wireless sharing, use the web browser or change the source, with just one touch. Throw out that manual, the Neo is as simple to use as a toaster!

The essentials of whiteboarding

A ruler, a calculator, 50 different pen colours...do you really need all of these? If not, CTOUCH Neo is the one! Choose between a pen or a marker and 6 colours to write with. Also included: an eraser, a selector tool and undo or redo buttons. That's all folks!
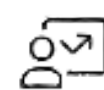

Wireless sharing as easy as can be

Connecting your device with a cable can be messy and will be costly when cables break and need to be replaced. A wireless connection provides a solution. The CTOUCH Neo features AirServer, so there's no need to install an additional app or equip the meeting room full of cables. Just use your device's native sharing software: Google Cast, Miracast or AirPlay and start casting right away.

Excellent video conferencing sound

Prolonging a longstanding partnership, the CTOUCH Neo speakers are by JBL®, leading to impressive sound, even in the back of the room. Combined with the integrated microphone array, the CTOUCH Neo becomes a powerful tool for hybrid meetings and teaching.

Neo at a Glance

Easy **whiteboarding** with only the essentials to choose from

Use **AirServer** to wirelessly share your screen
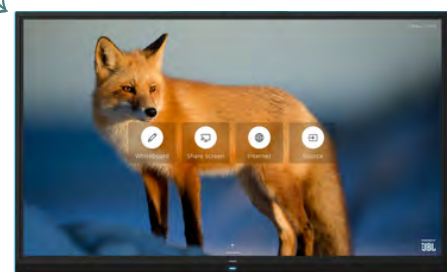

Gain quick access to the **internet** with the embedded Chromium browser

Change your **source** with one touch

Most Intuitive UI Ever
Thes user interface offers access to the 4 most used touchscreen features

Trouble-Free Wireless Sharing
Wirelessly share your Windows, Android or Apple device to the screen, no extra app necessary
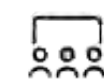

Whiteboarding Essentials
A whiteboard that's as simple as a flip chart featuring just the essentials.

Optional Web Browser
Browse the web with the embedded Chromium browser. Or not, it's up to the IT admin.
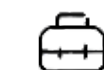

Up to 10 Years Warranty
Enjoy a lifetime of safe and supported touchscreen usage with our Heartbeat As-A-Service programme.

Save Energy
Built-in human presence detection and eco-mode settings Help conserve energy.

CTOUCH BRIX
SOFTWARE MODULE

CTOUCH BRIX

PANA DISPLAY

PANA DISPLAY
SEE THE WORLD THROUGH A 21:9 LENS

Pana's 21:9 ultra-wide 5K resolution brings a refreshing form factor to the conventional display market. Jupiters 8-foot wide Pana 105 canvas optimizes team productivity allowing for improved interaction and workplace collaboration. Pana provides 33% more pixels with 5K resolution giving the user more real estate in which to work.

CIOs are telling us 21:9 is making the biggest impressions enabling them to stand out, land new clients and attract better talent. That's a win-win.

Landscape or Portrait

Pana is visually engaging in either a landscape or a portrait view. Measuring over 8' tall vertically, Pana 105 is an impactful virtual greeter in full height, in addition to a stunning panorama in landscape mode. The applications are as broad as your imagination.

Pana 105 is the largest 21:9 ultra-wide LCD display available today. With the explosive growth of gaming and online content platforms, this aspect ratio will continue to gain in popularity.

At Jupiter we anticipate the future moving in this direction and lead the market in this offering. Our launch of enterprise-grade 21:9, 5K LCD displays is the largest and most comprehensive solution available today.

21:9 Panoramic Display

The extra wide form factor is inspired by our natural human ability to see wider than we see taller.

5K Resolution

PANA provides 33% more pixels with 5K resolution giving the users more real estate in which to work.

Interactive User Experience

Touch enables the experience for interactive autonomy, speed and ease of use. PANA interactive displays are touch driven by multiple, simultaneous collaborators

Built for Human Interaction

More pertinent information gets placed in our visual sweet spot increasing our comprehension and productivity. All the pixels are placed where everyone on the team can reach them

Interactivity through SimpleShare

Jupiter's proprietary SimpleShare software enables intuitive interaction optimized for PANA displays. The platform provides quick and easy access to your daily workflow
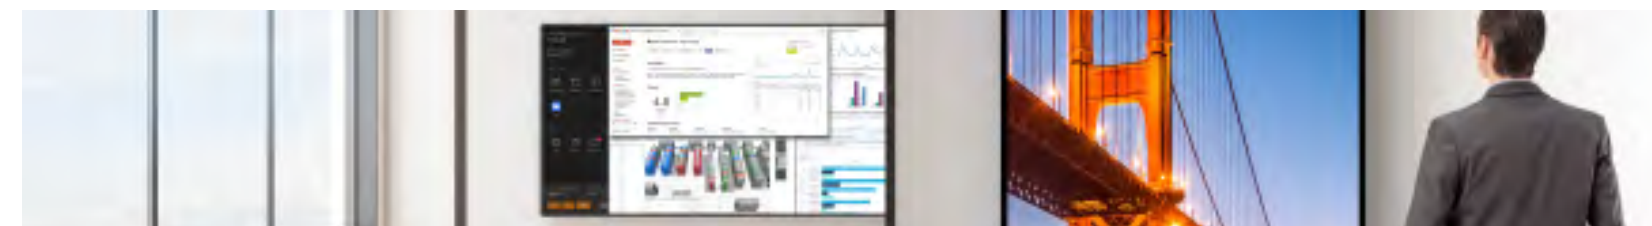

Download Solutions Guide

PANA DISPLAY
SEE THE WORLD THROUGH A 21:9 LENS

Visualize Impact

Pana 105 and 81 can be used in a variety of scenarios. its versatility can be adapted to your industry's display needs. Both models are available in touch and non-touch displays

Microsoft Teams Front Row Ready

Due to its 21:9 format, Microsoft now recommends using this Aspect Ratio for an enhanced meeting room configuration when using Teams.

The large single display perfectly shows the Front Row mode workflow and brings a completely new immersive experience and allows ease of interaction for all participants.

Create better visual experiences for meetings. We believe in the future of the modern workspace.

Enhance your Interaction with your Content

Whether it is content you experience with the 21:9 wide screen and 24 watt speakers, content you create with the stylus with the Pana 34 in easel mode, or the experiences you create in virtual reality or in virtual meetings, the Pana 34 delivers. The Pana 34 provides many features like the 8 array microphone, the sensitive stylus, the flexible mount of the camera, the dual articulating arm, and many advanced visual settings which enhance virtual meetings, gaming, movies, or your own digital art.

- 21: 9 Aspect Ratio
- Bezel Less OGS Display with 10 Point Multi-Touch
- 3,440 x 1,440 Resolution

BUNDLE SOLUTIONS

logitech

DESIGNED TO
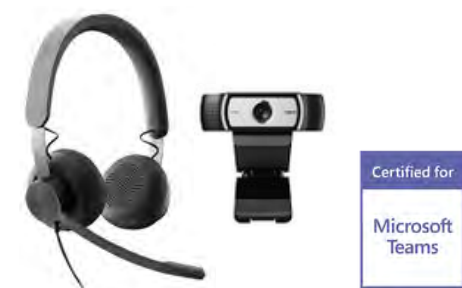

Be a Mid-range work from Anywhere Bundle

H390 Headset + C505 Webcam

- HD 720p widescreen video
- Mono, long-range microphone
- Extra-long USB-A cable extends setup options
- Bi-directional noise-cancelling microphones
- Fine-tuned 30 mm audio drivers deliver enhanced digital audio for meetings, music, and more

DESIGNED TO

Be a High-range work from Anywhere Bundle

Zone Wired Headset + C930

- Premium microphone for open office: Noise-canceling dual mic technology that accurately suppresses distracting sounds as close as 60 cm away.
- Premium audio drivers: Generously-sized 40 mm drivers deliver full-bodied bass, crisp higher frequencies and incredibly low distortion.
- Plug-and-play reliability: In-line controls keep call and music functions handy as USB-C and USB-A adapter (included) ensure plug-and-play compatibility.

DESIGNED FOR

Premium personal video collaboration

Zone Wireless Headset + Brio

- BRIO and Zone Wireless are easy to set up and use, which means minimal support overhead for busy IT teams.
- BRIO is packed with advanced features that produce outstanding video in any environment, including personal workspaces. RightLight and high dynamic range (HDR) technology automatically help users look great in any lighting condition.
- The adjustable field of view gives users control over how video calls are framed while the 4K ultra high-def camera with 5x digital zoom delivers remarkable clarity, smoothness, and detail.

CONFERENCE
CAMERAS

DESIGNED FOR

Huddle rooms, home offices and on-the-go professionals

DESIGNED FOR

Professional meeting spaces of all shapes and sizes

DESIGNED FOR

Huddle rooms and other smaller meeting spaces

DESIGNED TO

Be Tabletop companion camera with intelligent

Connect

- Superior video and audio with a compact, 3-inch footprint
- Plug-free mobility with a rechargeable battery
- Works with your video conferencing applications

Rally Camera

- RightSight automatic framing and RightLight automatic light balance and colour optimization
- 4K optics with 15x HD zoom
- 90-degree diagonal field of view motorized pan, tilt, and zoom
- Works with your video conferencing application

MeetUp

- See everyone, even those close to the camera
- Compact design minimizes cabling and clutter
- Works with your video conferencing applications

Sight

- Sight is a tabletop companion camera that works in tandem with Logitech Rally Bar or Rally Bar Mini to provide a front-and-center view of meeting participants around the table
- 315˚ video capture
- Dual lenses that capture up to 4K resolution.
- Directional mic pickup
- .Seven beamforming mics replace the need for a mic pod.
- Mic mute control
- Magnetic privacy shade
- Place Sight in non-traditional rooms with U- or V-shaped tables by securing it to a tripod stand.

- For large-sized boardrooms

ACCESSORIES
MICS & CONTENT SHARING

DESIGNED TO

Auto-level voices, suppress noise, and cancel echo

Rally Mic Pod

- Four microphones with eight beamforming
- elements provide a 15 ft (4.5m) pickup range
- 9.6 ft (2.95m) cable connects to Rally Table Hub,
- Rally Mic Pod Hub, or another Mic Pod
- Mute button with LED status indicator

DESIGNED TO

Provide superior sound in larger huddle rooms

MeetUp Expansion Mic

- Plug-and-play
- LED indicator confirms video streaming, microphone mute, on-hold, Bluetooth® pairing, etc
- Mono, wideband, noise-canceling
- Microphone mute

DESIGNED TO

Enable users to join any meeting from every room

Swytch

- Logitech Swytch is a BYOM (bring your own meeting) laptop link for video conferencing in meeting rooms, linking a Windows® 10 laptop, MacBook®, or Chromebook to the room's AV equipment with a single USB Type-A or C connection.

DESIGNED TO

Effortlessly share whiteboards in video meetings

Scribe

- An AI-powered whiteboard camera for Microsoft Teams Rooms, Zoom Rooms, and other leading video conferencing services
- Scribe's wireless share button makes sharing whiteboards into video meetings quick and easy
- Deploy Scribe in your classroom with your Zoom Rooms or Teams Rooms solution, or connect it to your laptop as a USB device

DESIGNED FOR

The support of Conference cameras and room solution peripherals

RoomMate

- Modular Versatility
- Power, with Connections
- Flexible, neat, secure
- Simple to manage
- Purpose-built for video collaboration

ACCESSORIES
CABLES

DESIGNED TO

Support optimal mic placement and cable routing

Rally Mic Pod Ext. Cable

- 10m Extension cable
- Rally Bar (supports up to 2 cables)
- Rally Bar Mini (supports up to 2 cables)
- Rally (supports 1 cable)
- Rally Plus (supports 1 cable)

DESIGNED TO

Provide cleaner and simpler cable routing for Logitech Tap

Cat5e Kit

- Use the 10 meters of cable included with the Cat5e Kit or supply your own cabling for runs of up to 40 meters
- Since Cat5e allows for precise cable lengths, it's easy to eliminate excess cabling beneath the table

DESIGNED TO

Deploy USB devices up to 45 meters from the host PC

Strong USB

- Extended-length SuperSpeed USB 10 Gbps cables
- Rated for wall, ceiling, and conduit installation
- USB 3.2 Gen 2 with backward compatibility

DESIGNED TO

Support optimal mic placement and cable routing

MeetUp Mic Ext. Cable

- 10-meter extension cable for Expansion Mic for Meetup
- Conduit-friendly design
- Includes cable clip for a reliable connection

ACCESSORIES
MOUNTS

DESIGNED TO

Attach Rally Bar, Rally Bar Mini, or Rally Camera to almost any display

DESIGNED TO

Position the Rally Bar or Rally Bar Mini above or below the display

DESIGNED TO

Securely position the Rally Camera onto the wall or near the ceiling

DESIGNED TO

Securely mount the Meetup to a TV or monitor

DESIGNED TO

Securely mount your mini PC or Chromebox out of sight

DESIGNED TO

Securely mount the Tap to the conference room table

TV Mount for Video Bars

- Swing-arm design
- Mount compatible devices above or below the display
- Adjustable depth up to 50mm
- Adjustable horizontal level +/- 1°
- 10° video bar tilt down adapter for above-display angle
- optimization

Wall Mount for Video Bars

- Mounts compatible devices to a wall or mobile cart
- Adjustable horizontal level +/- 1°
- 10° video bar tilt down adapter for high-position angle correction

Rally Mounting Kit

- Securely position Rally Camera on the wall or near the ceiling
- Low-profile speaker brackets provide a "floating" appearance
- Secure connections with robust cable retention brackets

TV Mount for MeetUp

- Attach above or below monitors
- Works with most flat-panel TVs
- A Size for every screen (55" or 90" screens)

PC Mount

- Compatible with Intel® NUC and most Chrome boxes
- Integrated cable retention keeps connections tight
- Secures computers and cables to walls and beneath tables

Tap Riser Mount

- Optimal display angle for center-of-table installations
- Fits most tables and grommet holes
- Hides cabling for a clean look

ACCESSORIES
MOUNTS

DESIGNED TO

Securely mount the Tap to the conference room wall

DESIGNED TO

Securely mount the Tap to the conference room table

DESIGNED TO

Anchors mic pods to a table or ceiling with cable management

DESIGNED TO

Securely mount Rally Mic Pod microphones.

Tap Wall Mount

- Preserves table space
- Sturdy plate and cleat construction
- Compatible with in-wall and down-wall cabling

Tap Table Mount

- Low profile mount with 180° swivel
- Fits most tables and grommet holes
- Hides cabling for a clean look

Mic Pod Mount

- Elevate the appearance of meeting rooms equipped with Rally Mic Pods
- With a compact form factor and clever design, Mic Pod Mount anchors mic pods in place provides a hidden path for cabling, and neatly coils excess cable

Rally Mic Pod Pendanr Mount

- Mic Pod Pendant Mount allows you to hang Rally Mic Pods in rooms that have tall ceilings and tables that can't have mics attached or that have unique setups. Hanging mics from the ceiling helps ensure everyone can be heard equally, even in your largest spaces.

SPEAKERPHONES

IDEAL FOR

Turning any home office workspace into a conference room

IDEAL FOR

Meetings and music, wherever your day takes you

IDEAL FOR

Turning smaller or flexible spaces into powerful conference rooms

IDEAL FOR

Conference rooms and has incredibly powerful audio
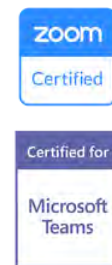

Sync 10

- Enterprise-grade hi-fi audio and power amplifier
- USB-A cable with a USB-C adapter included
- Powered by USB connection
- IP64 dust and water-resistant
- Slim, space-saving design
- Microsoft Teams certified
- Zoom certified

Sync 20

- Plug-and-play USB with convenient cord management
- Bluetooth adapter options for cordless connectivity to PC (Poly Sync 20+)
- Built-in Bluetooth for mobile phone connectivity
- Up to 20 hours of talk time
- Ability to charge mobile phone
- Zoom certified

Sync 40

- Works with computers via USB and with smartphones via Bluetooth
- Connects to personal devices and works with existing applications
- The programmable button clears previously paired Bluetooth devices (must be enabled)
- Poly Sync 40+ connects wirelessly to computers via the included BT600 adapter

Sync 60

- The video camera connects with a USB pass-through
- Talker-tracking visual location indicators (must be enabled)
- Visual LED Voice level meter (must be enabled)
- Works with computers via USB and with smartphones via Bluetooth®

CONFERENCE
AUDIO

IDEAL FOR

Smaller rooms requiring exceptional audio conferencing quality

IDEAL FOR

Larger rooms requiring the best conference phone performance

IDEAL FOR

Medium and large rooms require the best audio conference experience.

Trio 8300

- Legendary voice quality and up to 3.7m/12ft of pickup
- Meeting initiation with one-touch join
- Allows connectivity to multiple SIP platforms at once
- Audio connectivity for mobile devices

Trio 8800

- Legendary voice quality with 22kHz audio, up to 6m/20ft pickup range
- Meeting initiation with one-touch join
- Connect to multiple UC&C cloud services simultaneously
- BYOD support via USB, Bluetooth, IP
- Wi-Fi audio conferncing 2.4-5GHz
- Optional accessories available for adding video conferencing capability

Trio C60

- Poly signature audio with 22kHz audio, up to 6m/20ft mic pickup range
- Meeting initiation in seconds with one-touch join
- BYOD support via USB, Bluetooth, IP
- Wi-Fi audio conferencing 2.4-5GHz (MIMO)
- Daisy-chain up o three conference phones for extra-large and unique spaces
- Pairs with Poly Studio X family and G7500 video solutions

SOFTWARE
IT TOOLS

### Yealink Device Management Platform

Yealink's powerful GUI-driven Device Management Platform delivers a comprehensive set of tools for implementing multiple Yealink devices, which is designed to solve the complexities of provisioning, management, call quality control, and troubleshooting. The solution owns system-wide oversight and the ability to drill down into specific needs for various regions, user groups, or even a particular device model The devices can be deployed automatically in the platform once the network is connected, which abandons the expensive traditional deployment. In addition, the platform supports device configuration, firmware upgrading, and device resource management, and all of these can be pushed to your terminal devices as a regular task whenever you need them. For the enterprise administrators, they are not only allowed to view and check the real-time analysis of device working state and call quality, but also to troubleshoot problems timely with the online diagnosis feature.

- Web-based platform, integrating several functions into a whole
- Group devices according to different districts, departments, and functions
- Control all of your devices remotely on the platform
- Execute task at once or set timing task
- Multiple diagnostic methods, ensure that the call experience always meets the requirements
- Real-time business and quality analysis, alarm notification when the device abnormal

Yealink Meeting

Yealink Meeting is a distributed cloud-based service platform tailored for multi-way video conferencing collaboration. As a powerful all-in-one service platform, Yealink Meeting not only brings MCU, registrar server, traversal server, meeting management server, meeting control server, enterprise directory server, GK&H.460 server and so on together, but also seamlessly integrates with s a whole series of video conferencing products. Being in an advanced distributed architecture, Yealink Meeting is distributed with multiple service nodes around the world with better expandability, and it also owns multi-point and multi-machine hot standby which are functioned as a failover mechanism to provide reliability in system configuration. Characterized with rich functions, it provides 1080P full encoding and decoding capability and multi-groups and large-capacity conferences, scheduled conferences, meet-now conferences, etc. Ease-of-use, simple deployment, easy maintenance, good security, and reliability, Yealink Meeting delivers the specific solutions to address your unique needs for an enterprise or a service provider
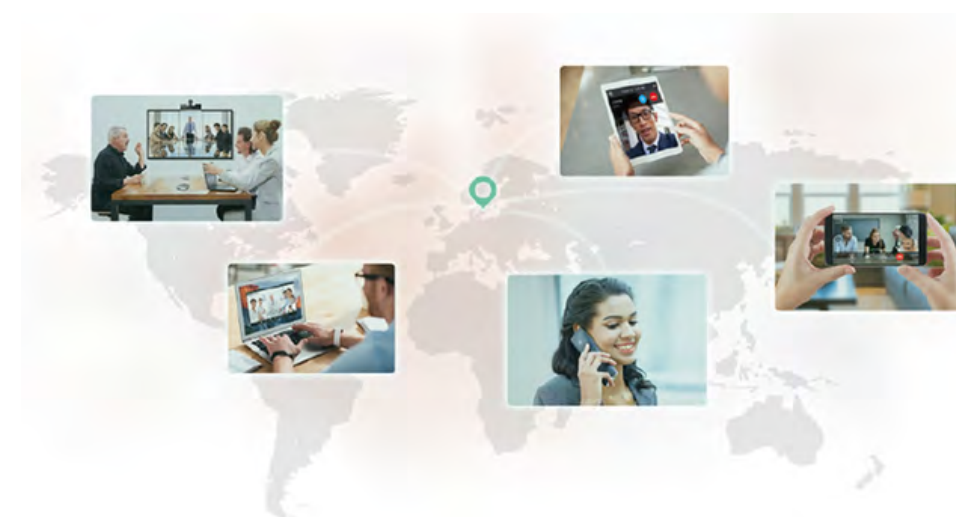

- All-in-one, brings MCU, registrar, directory, traversal server, meeting management server, and GK&H.460 server together
- Advanced cloud-based architecture with multiple worldwide service nodes
- 1080P full encoding and decoding capability
- Supports a Standard SIP/H.323 Endpoint dial server IP to join meeting directly
- Interoperability with Microsoft Teams for audio, video, and content sharing
- Supports RTMP Live, a large number of participants can watch the live broadcast simultaneously

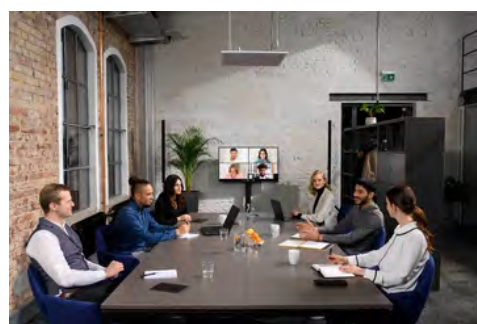

AUDIO SOLUTIONS
CONFERENCE ROOMS

Yamaha ADECIA Ceiling Solutions, featuring the Ceiling Array Microphone RM-CG and Conference Processor RM-CR, helps organisations overcome challenges with implementation, configuration and room acoustics by providing all the components required for a successfull installation.

Designed to work seamlessly together to reduct set up time, costs and complexities

Ceiling Array Microphone

The dynamic ceiling array microphone features multi-beam tracking technology which focused on voices. The special spiral layout of its microphone elements, the RM-CG provides the narrowest, most precise beam for voice capture, while continuous background noise is eliminated using Yamaha's advacned noise reduction algorithms and Human Voice Activity Detection (HVAD),

Combined with its beam tracking technology, it can clearly pick up individual voices, even when more than one person is speaking. Dante audio and the control and power are supplied through one LAN cable, while three different mounting methods - ceiling, VESA and wire mount - are included to suit any space

Conference Processor

The Conference Processor automatically recognises Dante mircophones and speakers on the same network. During commissioning it automatically sets the optimum sound setting for the environment, taking into account the location of speakers and microphones, he room's reverberation characteristics and echo responses. Auto-tuning is achieved with a simple, fives-step porcess using special web-based interface.

The Conference Processor performs auto mixing of all connected Dante audio sources and the conference processor can handle a wide range of sources including dynamic microphones, analog line level I/O, USB, Bluetooth and SIP telephony.

Key Features

- Complete Coverage from Sound Input to Output
- Capture Every Word with Human Voice Activity Detection
- Optimal Audio in Shortest Time
- Flexible Layouts for Reverberant and Multi-Purpose Rooms
- Seamless Integration into ALL Audio Environments
