# ABOUT US

## WHAT WE DO

Kathea is a value-added distributor of Voice, Audio Visual, Video Conferencing and Workspace Management Products, Solutions and Services.

Founded in 1998, Kathea has a proud history of making markets for manufacturers, through focused and specialized distribution, in South Africa and Africa. Kathea provides products and services through a partner community of 800 resellers and employs approximately 55 staff with offices in Johannesburg, Cape Town and Port Elizabeth.

### VOICE

We distribute a range of devices to match enterprise requirements, contact centres, SMEs and hotels. These include a wide range of phones, headsets and conferencing phones.

### VIDEO & AUDIO VISUAL

We provide video conferencing end-points and infrastructure (cloud or on prem) as well as audio visual products to fully equip your boardrooms, classrooms and auditoriums.

### WORKSPACE MANAGEMENT

Our specialised Workspace Management solutions range from complex enterprise-grade solutions to agile and easily installed mid-size corporate requirements.

# ABOUT US

## OUR EXPERIENCE

Kathea proudly represents some of the top brands in the communication, collaboration, audio visual and workspace technology arenas.

We offer high value-add brand representation with deep skills and service competence, combined with efficient distribution to over 700 partners.

### EXPERIENCE

Over 24 years of experience in "making and serving markets" for brands such as Jabra, Polycom, Extron and many others.

### AWARDS

Our multiple awards across various fields over 24 years serve as further evidence of how Kathea sets itself apart.

### PRESENCE

We are well represented in all 3 of the major centers in South Africa – Johannesburg, Cape Town and Port Elizabeth.

### PARTNERSHIPS

We are committed to long term partnerships with all of the brands and channel partners that we work with.

# SERVICES

## SERVICE OFFERINGS

### SERVICE LEVEL AGREEMENTS

These SLA's enable the end user to experience high quality, reliable solutions that come with maintenance and reporting services which allow for uninterrupted communication between various locations, without relying heavily on internal resources in order to achieve this. Custom SLA's are also created to meet particular business requirements.

### INSTALLATIONS

Kathea assists Partners with End Point and Infrastructure installations, providing experienced engineers and install technicians to carry out installations at a customer's facility. Installations also includes configuration and orientation of the equipment to the highest standard. Testing of the equipment is key, and this will be done thoroughly to ensure full functionality of the systems.

### OUT-OF-WARRANTY SUPPORT

Our highly skilled post-sales support teams are available to try and assist where products are out of warranty.

### IN-WARRANTY SUPPORT

We facilitate all claims against manufacturer warranties for products purchased through us. This is done through an experienced Service Centre Team in the Johannesburg offices.

### RENTAL SOLUTIONS

We have partnered with one of the largest and most reputable privately owned financial institutions in the country in order to provide our Partners with tailor-made rental solutions to meet the specific and individual needs of their customers.

# ABSEN

## ABSENICON 3.0 SERIES

Absenicon is a revolutionary all-in-one LED screen for conferencing. It helps users to better facilitate presentations, brainstorming and decision-making.

### Delivering the Ultimate Meeting Experience

With the ultra-high screen-to-body ratio and frame stripped back to 5 mm, Absenicon provides a more immersive experience for all the viewers. Experience stunning visual performance with Absenicon. Every dark or bright detail looks vivid and clear with its 110% NTSC cinematic level color gamut and 350nits brightness. User-friendly interface and remote-control, as simple as using a TV Plug and play, one button to turn on/off.

### Common Meeting Rooms

Ultra-wide display viewing angle, 350nit brightness, promising a comfortable and bright meeting environment for enterprise or government.

### Video Conference Rooms

Compatible with mainstream video conferencing software, ensuring smooth screen share without buffering or sound sync issues.

### Lecture Halls

Born for large-scale meetings, able to deliver an immersive learning or meeting experience for all the viewers.

# ABSEN

## KL SERIES

Abesen, the global leader in LED display solutions presents the KL series, a fixed indoor product with a perfect balance of excellent visual performance, ease of operation and price

### For All Application Scenarios of Commercial Display

With the ultra-high screen-to-body ratio and frame stripped back to 5 mm, Absenicon provides a more immersive experience for all the viewers. Experience stunning visual performance with Absenicon. Every dark or bright detail looks vivid and clear with its 110% NTSC cinematic level color gamut and 350nits brightness. User-friendly interface and remote-control, as simple as using a TV Plug and play, one button to turn on/off.

### Outstanding Visual Performance

The Absen KL series boasts a high level of brightness, grayscale, contrast ratio and refresh rate. And with fine die-casting aluminium panels, the KL series is able to deliver higher visual impact.

### Innovative Design

The KL series is an all-in-one product featuring sleek and user-friendly designs. It allows for multiple installation methods including wall-mounting, floor installation, and more.

### Ease of Operation and Maintenance

Absen's KL series is an all-in-1 product, with power supply units, cables, receiving cards and other key components inside, offering a better installation and maintenance solution.

# ABSEN

## CLEAR COBALT

# ABSEN

## HC SERIES

Clear Cobalt, is the new generation of display products from Absen. Using several innovative technologies to provide outstanding visual performance versus traditional LED products. The CL Series also supports 2K/4K/8K for higher HD Display requirements. Producing stunning visuals for professional control rooms, corporate lobbies, large conference rooms and luxury living.

### Black Coating Technology

With full black coating technology and Absen's black calibration technology, the Clear Cobalt has not only gained a non-reflective surface, but also produces vivid colours for true to nature images.

The new HC series is a narrow pixel pitch display, featuring stunning HD vividness, lightweight design, and both safety and stability

## DISPLAYS

# CTOUCH RIVA

## EDUCATION

The CTOUCH Riva is a super user-friendly touchscreen. As a true chameleon, it will find any kind of meeting experience. Easily upgrade the touchscreen to your needs. CTOUCH will support you with the perfect fit.

### Make your Meetings come Alive

The way people work together is changing rapidly. This drives us to develop flexible solutions that fit any kind of meeting experience. The CTOUCH Riva is a super user-friendly touchscreen that brings the power of touch in any working environment. Easily share your content on the big screen, write the smartest ideas on the interactive whiteboard and inspire everyone in the room.

### Easily upgrade with CTOUCH BRIX

The CTOUCH Riva is based on a modular platform. Called BRIX. It can be easily upgraded over time- according to the needs of the users- with CTOUCH Brix modules. Ready to dive into Microsoft Teams meetings? or want to bring Zoom into your meeting room? Simply upgrade with a CTOUCH BRIX module and you're set to go, without replacing the entire touchscreen. With CTOUCH Riva you are fully prepared for the modern workplace of the future!

#### Wi-Fi module:

- Add wireless internet to your screen
- Build-in hotspot function
- Bluetooth

#### Human Presence Detection module:

- Screen automatically turns on when you enter the room
- And off again when rooms are empty
- Saving money and our planet!

#### NFC Reader module:

- Easy login: tap your card and go!
- Lock your screen for unwanted users
- Reliable and safe

#### Fingerprint Scanner:

- Login and unlock your screen with your fingerprint
- Start preparing your meetings right away
- Protect your files from unwanted users

### A true natural handwriting experience

Annotate, write and draw like never before due to TrueBeam Touch technology. It feels natural and smooth. Simply use your finger or a pen and write as fast as you can. Use your hand palm for easy erasing without switching tools. How convenient is that!

### Triple S glass: smooth, stripeless and safe

Writing on the Triple S glass display feels very smooth and soft, leaving minimal stains behind. And don't be afraid of rough users as the safety glass can take a beating!

### Excellent sound with the high end JBL® 80 Watt speakers

Amaze your audience and blow them away with the 80 Watt integrated JBL® speakers. They deliver Live-stage (virtual) Surround sound. Even in the back of the room the sound is impressive, without the need for extra sound equipment

### Multiple connectors for easy screen sharing

The screen comes with multiple connectors for real-time screen sharing. With HDMI-out for example, you easily share content from your screen to multiple devices in the room. And to the USB-C port, you can connect any device with just a single cable. It transfers data, sound, touch and power. So, it can even charge your device while connected!

### Optional modules: only pay for what you need!

Upgrade your CTOUCH Riva with these optional modules. Choose the ones that suit you best.

# CTOUCH CANVAS

## BUSINESS

The CTOUCH Canvas stands out in every meeting room! Its unique CTOUCHABLE™ design invites you to instantly touch the screen. Discover the ultra-fine pen-on-paper like writing experience. It's designed for business and meets the highest security standards.

### Take team collaboration to the next level

Advances in cloud collaboration, tooling and conferencing systems are fast pacing each other. Want to get into flow with your team? The Canvas' unique CTOUCHABLE™ design invites you to interact with the content on the screen. From the coloured rubber and soft-touch textile frame, to the touchable buttons and intuitive menu. It all works together to foster energising meetings. Bring innovation and teamwork to life!

### Easily upgrade with CTOUCH BRIX

The CTOUCH Canvas is a modular touchscreen. It can be upgraded over time with our collaboration solutions. We call them BRIX. Ready to dive into Microsoft Teams meetings? Or want to bring Zoom Rooms into your meeting space? Simply fit the CTOUCH Canvas with a BRIX module and you're set to go. With the CTOUCH Canvas you are prepared for the workplace of the future!

### Ultra-fine writing experience

Write, sketch and annotate like never before! The optical bonded InGlass™ touch technology delivers you a high-precision pen-on-paper-like writing experience. Simply use the passive pen or your finger and write or erase as fast as you can.

### Security by design

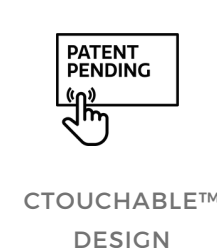

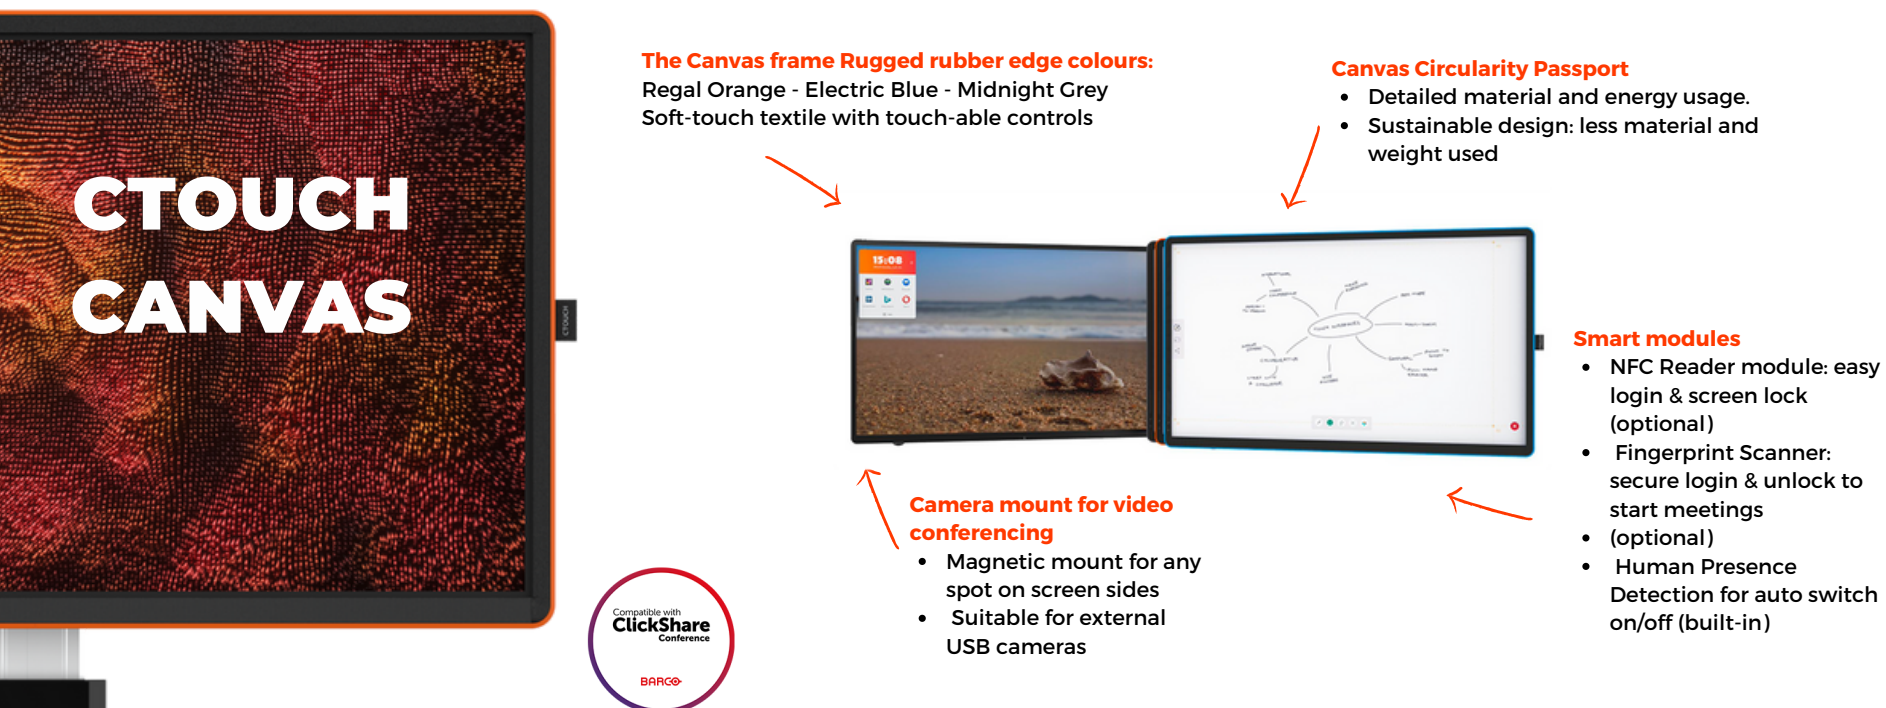

The Canvas is designed for business grade security. This is why it comes without an operating system. No software updates are needed. No data is stored on the display. And no apps can be installed that could leak your data or grant access.

### Business connectivity & management

You are in full control! The USB-C port provides easy one-cable presenting for video, touch, charging (100W) and internet. For management and local control, the RS232 interface and IP management is available. Want to integrate the Canvas in your enterprise network?

### Full-room audio with the integrated JBL® 80 Watt speakers and microphone array

Amaze your audience and immerse them with the JBL® speakers. They deliver Live-stage (virtual) Surround sound. Even in the back of the room the sound is impressive.

# CTOUCH BRIX

SOFTWARE MODULE

Be prepared for the modern workplace of the future with these modular collaboration solutions. Only pay for what you need. Easy to upgrade. And futureproof.

From whiteboarding and easy screen sharing to videoconferencing or full collaboration. Whatever your needs are, we'll support you with the perfect fit. And when your needs change, simply upgrade your BRIX module and you're set to go!

### Whiteboarding & Screensharing

No more bullsh#t meetings! Share your work and get your ideas flowing on the touchscreen.

### Video Conferencing

Feeling lonely? Get together - via Microsoft Teams or Zoom - and show them your happy face

## MANAGEMENT SOLUTIONS

# RESOURCE SCHEDULER OVERVIEW

## Building Companies of the Future: Elevate Your Digital Workplace with Resource scheduler

The advent of cloud and mobile technologies has revolutionized the modern workplace. Employees have new expectations for mobility, and employers are recognizing the myriad benefits of flexible workstyles and tech-savvy workplaces. However, establishing an effective and successful digital workplace is easier said than done. Let FM:Systems pave the way for your organization with innovative scheduling solutions that deliver new levels of efficiency and productivity for your mobile, virtual, and traditional employees. From conference rooms and video conferencing facilities to shared workspaces and managed services, Resource Scheduler is the most comprehensive workplace management solution available

### Features

- Conference Room Scheduling
- Meeting Planning
- Service Management
- Desk Sharing
- Mobile Scheduling
- Interactive Floorplans
- Outlook Integration
- Visitor Management
- Web & Video Conference Integrations
- Integrated Hardware
- Reporting & Analytics

Building Companies of the Future:FM:Systems' Resource Scheduler is a flexible and robust workplace management solution that solves the most challenging workflow issues related to managing rooms, resources, and associated services.

With innovative technology and an intuitive user interface, Resource Scheduler increases productivity and efficiency while simultaneously delivering real estate ROI with the potential for lease savings and cost avoidance. Resource Scheduler offers sophisticated functionality backed by a robust engine that is built to scale. With Resource Scheduler, you can streamline your local office or power your global organization.

### Room, Resource and Service Management

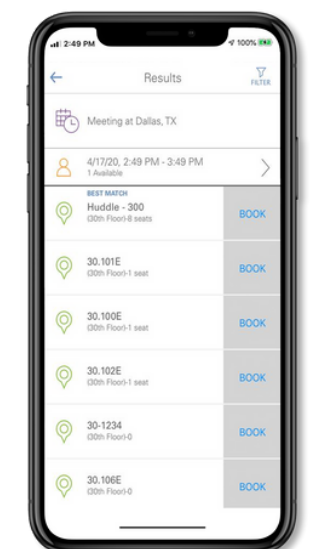

Resource Scheduler is an online, cloud-based scheduling system for desk, room, and resource reservations. If you are scheduling a quick team meeting or a detailed client event, Resource Scheduler offers intuitive solutions that ensure the optimum space to get the job done.

- Quickly find and reserve rooms, equipment, and services
- Comprehensive scheduling includes options for recurring, multi-day and multi-resource reservations
- Create reservations and send meeting invites from the web, Outlook, or your mobile device
- Streamline internal operations with a dynamic service management system that includes inventory control and reporting

### Room, Resource and Service Management

FM:Systems' fully integrated scheduling solution can help you achieve your efficiency and productivity goals by reducing manual processes, improving collaboration, and increasing the productivity of your mobile workforce.

- Seamlessly integrate room and resource scheduling with Microsoft Outlook
- Keep teams connected with integrations for WebEx, Crestron Fusion, and Cisco TMS video conferencing
- Streamline operations with an integrated visitor management solution that enforces security protocols
- Create a modern, tech-savvy workplace with digital signage, touch panels, and interactive kiosks

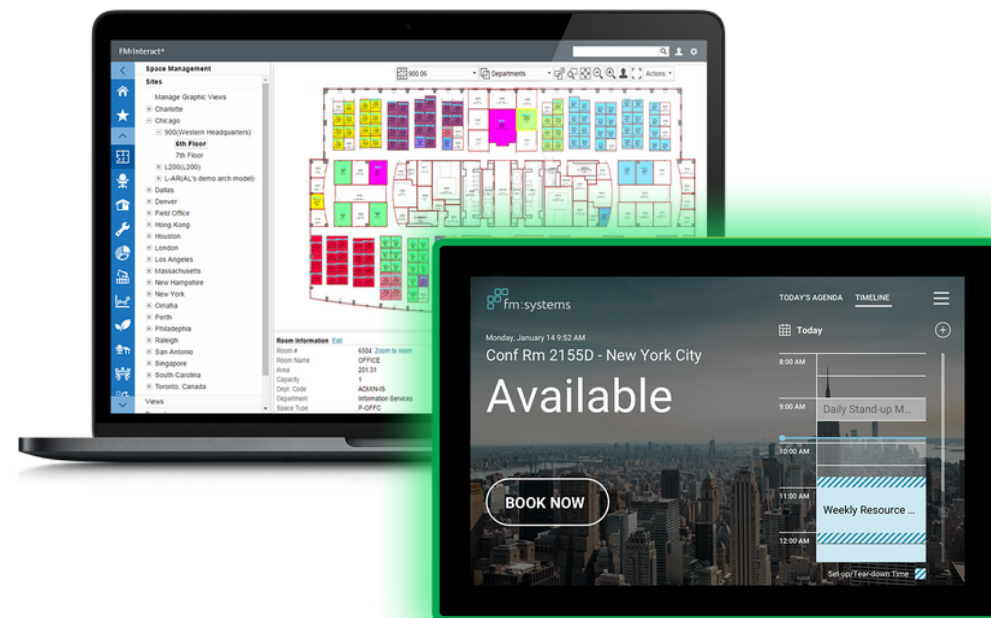

# DESK SHARING

## FOR EMPLOYEE ENGAGEMENT & EMPLOYEE EXPERIENCE

The key to any successful organization is employee engagement. Desk sharing is a powerful way to give your employee's control over their work experience and improve engagement and productivity. With Resource Scheduler desk management solutions, users can find and reserve shared workspace quickly and easily from the web, a kiosk, Outlook, or their mobile device. Resource Scheduler makes it easy for users to find the space they're looking for—by location, workspace type, or proximity to co-workers—and displays the results visually on an interactive floorplan.

### Key Benefits

- Drive program adoption with an intuitive user interface and mobile scheduling from multiple devices
- Support mobile and virtual workers with integrated tools for easy collaboration
- Leverage available sensor technology to track space utilization and measure program performance
- Visualize trends, analyze usage behavior, and make data-driven decisions about your real estate investment and workplace design

### Space Booking

- Cloud scheduling platform for shared workspaces
- Multiple access points including Outlook, interactive floorplans, and mobile scheduling
- Configurable workflows for centralized or self-service models
- Support for Multi-resource, multi-time-zone and recurring reservations
- REST and SOAP APIs for system integration

### Resource Management

- Flexible configuration options to schedule and manage a variety of services and resources
- Support for multiple service providers, pricing and inventory controls
- Dynamic management console to view and approve orders
- Support for Multi-resource, multi-automated email notifications
- Configurable rules for lead time and availability

### Visitor Management

- Arrival and departure registration of external attendees and ad-hoc visitors
- Badge printing and multi-stop check-in capabilities
- Visitor Profiles
- Evacuation Reporting

### Occupancy Sensor

- IoT sensors for real-time views of occupancy and utilization
- PIR (passive infrared) sensor detect heat and motion
- Visitor Profiles
- Cloud analytics reveal unused and under-performing spaces
- Live Space availability view for digital workplace enablement and wayfinding

### Digital Signage

- 10" LED panel for conference room display
- Real-time sync with Space Booking for scheduling integrity
- Capture and manage no-shows

# APPLICATIONS

## HOTELING & DESK MANAGEMENT & MOBILE DEVICE RESERVATIONS

### Easy Workspace Reservations with Mapview

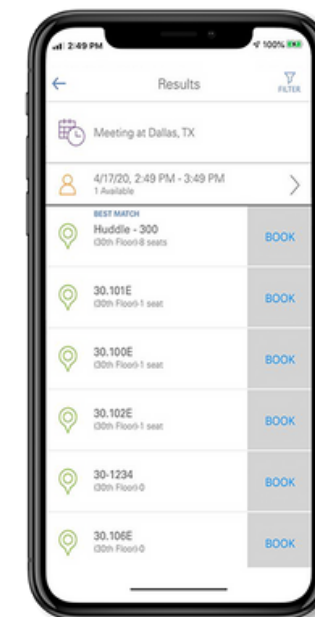

Create a fluid workplace experience for a mobile and distributed workforce with Desk Management solutions from FMS:Employee. Employees who travel between offices or have a flexible work schedule require an intuitive solution to find and reserve a suitable workstation for their time on-site. With our intuitive MapView interface, users can search by location, workspace type, or proximity to coworkers and see the results on an interactive pan-and-zoom floorplan. Implementing an effective desk management strategy can maximize employee productivity while simultaneously optimizing your real estate portfolio.

MapView offers intuitive filters and robust search capabilities making it easy to identify the perfect workspace for the task at hand. Integrate sensor data to gain powerful, real-time views of workspace occupancy, utilization and availability.

### Find and Reserve Workspaces Directly from Your Mobile Device

NowSpace is an intuitive mobile app designed to drive productivity in the digital workplace. Available on Apple and Android devices, NowSpace gives employees easy access to calendars and reservations with the convenience of on-the-go scheduling, ideal for your mobile workforce. Employees can easily find, reserve, and use workspaces and meeting rooms directly from their mobile devices.

### NowSpace Features:

- View room and desk availability for a specified time and location
- Quickly reserve available space with one-touch Meet Now option
- Check attendee availability and send invites with an optional Exchange or Google calendar connection
- See resource characteristics and view resource location on a floor plan
- Optimized search results based on historical usage and user preferences
- QR code functionality for reservation check-in
- Real-time communication with Resource Scheduler to ensure scheduling integrity
- Intuitive UI with native app navigation and large touch targets
- Single Sign On compatible

- Logitech Strong USB 10m cable mini-PC
- Rally mounting kit
- One speaker
- One Microphone

DESIGNED FOR

Large meeting rooms, offering brilliantly sharp video and audio

Large Room Solution

- Conference Camera
- Logitech Tap Controller
- Logitech Strong USB 10m cable mini-PC
- Rally mounting kit
- One speaker
- One Microphone

# ACCESSORIES

## CABLES

DESIGNED TO

Support optimal mic placement and cable routing

Rally Mic Pod Ext. Cable

- 10m Extension cable
- Rally Bar (supports up to 2 cables)
- Rally Bar Mini (supports up to 2 cables)
- Rally (supports 1 cable)
- Rally Plus (supports 1 cable)

DESIGNED TO

Provide cleaner and simpler cable routing for Logitech Tap

Cat5e Kit

- Use the 10 meters of cable included with the Cat5e Kit or supply your own cabling for runs of up to 40 meters
- Since Cat5e allows for precise cable lengths, it's easy to eliminate excess cabling beneath the table

DESIGNED TO

Deploy USB devices up to 45 meters from the host PC

Strong USB

- Extended-length SuperSpeed USB 10 Gbps cables
- Rated for wall, ceiling, and conduit installation
- USB 3.2 Gen 2 with backward compatibility

DESIGNED TO

Support optimal mic placement and cable routing

MeetUp Mic Ext. Cable

- 10 meter extension cable for Expansion Mic for Meetup
- Conduit-friendly design
- Includes cable clip for a reliable connection

DESIGNED TO

Allow users to easily customize their conference room setup

Group 10m Ext. Cable

- This 10 meter cable replaces the 5 meter DIN cable included with Logitech GROUP and can be routed through a conduit or raceway for super-clean conference room installations.

# ACCESSORIES

## MICS & CONTENT SHARING

DESIGNED TO

Auto-level voices, suppress noise and cancel echo

Rally Mic Pod

- Four microphones with eight beamforming elements provide a 15 ft (4.5m) pickup range
- 9.6 ft (2.95m) cable connects to Rally Table Hub,
- Rally Mic Pod Hub, or another Mic Pod
- Mute button with LED status indicator

DESIGNED TO

Provide superior sound in larger huddle rooms

MeetUp Expansion Mic

- Plug-and-play
- LED indicator confirms video streaming, microphone mute, on-hold, and Bluetooth® pairing, etc
- Mono, wideband, noise canceling
- Microphone mute

DESIGNED TO

Extend the range of the Group video conferencing system

Group Expansion Mics

- Expand the conversation area from 6m/20-foot to 8.5m/28-foot so that even those away from the speakerphone can be clearly heard
- Microphones, sold in pairs, are automatically recognized and configured by simply plugging them into the speakerphone.

DESIGNED TO

Enable users to join any meeting from every room

Swytch

- Logitech Swytch is a BYOM (bring your own meeting) laptop link for video conferencing in meeting rooms, linking a Windows® 10 laptop, MacBook®, or Chromebook to the room's AV equipment with a single USB Type A or C connection.

DESIGNED TO

Effortlessly share whiteboards into video meetings

Scribe

- An AI-powered whiteboard camera for Microsoft Teams Rooms, Zoom Rooms, and other leading video conferencing services
- Scribe's wireless share button makes sharing whiteboards into video meetings quick and easy
- Deploy Scribe in your classroom with your Zoom Rooms or Teams Rooms solution, or connect it to your laptop as a USB device

# ACCESSORIES

## MOUNTS

DESIGNED TO

Attach Rally Bar, Rally Bar Mini or Rally Camera to almost any display

TV Mount for Video Bars

- Swing-arm design
- Mount compatible devices above or below the display
- Adjustable depth up to 50mm
- Adjustable horizontal level +/- 1°
- 10° video bar tilt down adapter for above-display angle
- optimization

DESIGNED TO

Position the Rally Bar or Rally Bar Mini above or below the display

Wall Mount for Video Bars

- Mounts compatible devices to a wall or mobile cart
- Adjustable horizontal level +/- 1°
- 10° video bar tilt down adapter for high-position angle correction

DESIGNED TO

Securely position the Rally Camera onto the wall or near the ceiling

Rally Mounting Kit

- Securely position Rally Camera on wall or near ceiling
- Low-profile speaker brackets provide “floating” appearance
- Secure connections with robust cable retention brackets

DESIGNED TO

Securely mount the Meetup to a TV or monitor

TV Mount for MeetUp

- Attach above or below monitors
- Works with most flat-panel TV's
- A Size for every screen (55" or 90" screens)

DESIGNED TO

Securely mount your mini PC or Chromebox out of sight

PC Mount

- Compatible with Intel® NUC and most Chrome boxes
- Integrated cable retention keeps connections tight
- Secures computers and cables to walls and beneath tables

DESIGNED TO

Securely mount the Tap to the conference room table

Tap Riser Mount

- Optimal display angle for center-of-table installations
- Fits most tables and grommet holes
- Hides cabling for a clean look

# ACCESSORIES

## MOUNTS

DESIGNED TO

Securely mount the Tap to the conference room wall

Tap Wall Mount

- Preserves table space
- Sturdy plate and cleat construction
- Compatible with in-wall and down-wall cabling

DESIGNED TO

Securely mount the Tap to the conference room table

Tap Table Mount

- Low profile mount with 180° swivel
- Fits most tables and grommet holes
- Hides cabling for a clean look

DESIGNED TO

Anchor mic pods to a table or ceiling with cable management

Mic Pod Mount

- Elevate the appearance of meeting rooms equipped with Rally Mic Pods
- With a compact form factor and clever design, Mic Pod Mount anchors mic pods in place, provides a hidden path for cabling, and neatly coils excess cable

- Legendary voice quality with 14kHz audio, up to 4.3m/ 14 ft pickup range
- Meeting initiation with one-touch join
- Allows connectivity to multiple platforms
- Audio connectivity from a mobile device (USB, Bluetooth)
- Optional accessories available for adding video conferencing capability

### IDEAL FOR

Larger rooms requiring the best conference phone performance

### Trio 8800

- Legendary voice quality with 22kHz audio, up to 6m/20ft pickup range
- Meeting initiation with one-touch join
- Connect to multiple UC&C cloud services simultaneously
- BYOD support via USB, Bluetooth, IP
- Wi-Fi audio conferencing 2.4-5GHz
- Optional accessories available for adding video conferencing capability

### IDEAL FOR

Medium and large rooms requiring the best audio conference experience.

### Trio C60

- Poly signature audio with 22kHz audio, up to 6m/20ft mic pickup range
- Meeting initiation in seconds with one-touch join
- BYOD support via USB, Bluetooth, IP
- Wi-Fi audio conferencing 2.4-5GHz (MIMO)
- Daisy-chain up to three conference phones for extra-large and unique spaces
- Pairs with Poly Studio X family and G7500 video solutions

# VIDEO SOLUTIONS

## CAMERAS & ROOM SOLUTIONS

# CONFERENCE CAMERAS

IDEAL FOR

Business, education, medical or even virtual student classes

EagleEye Mini

- Connect to your desk phone, PC/Mac or Cloud video apps such as Zoom and Microsoft Teams built right in - no PC or Mac required
- Use open standards to connect to nearly any cloud video services
- Daul display support to see people and content in full size
- Production quality camera framing and tracking

IDEAL FOR

Medium to large meeting spaces that require ease and finesse

EagleEye MSR

- HD 1080p video at 30 frame per second
- Wide field of view (72.5° Horizontal, 44.8° Vertical Field of View) with +-170° pan and 120° tilt
- 12x optical zoom
- Simple, easy to operate remote
- Home preset position to quickly set and recall the camera to home position

IDEAL FOR

Professionals of all types who are serious about quality video

Studio P5

- Exceptional camera optics and automatic low-light compensation
- Hear and be heard wherever you work
- You can take it with you: small, rugged and portable
- Make life simple: easy to use, setup, manage and troubleshoot

IDEAL FOR

Connecting any room to the boardroom

Studio E70

- Dual lenses with 20 megapixel 4K sensors
- AI-driven camera array
- Motorized, integrated electronic privacy shutter
- Includes Poly Lens management software
- Connects to Poly G7500 and Poly Microsoft Teams Room

# CONFERENCE

## ROOM SOLUTIONS

### IDEAL FOR

Medium to large rooms needing custom-designed video conferencing.

### G7500

- 4K Ultra HD video and content resolution
- Select from flexible cameras and microphone options to match the room requirements
- Poly NoiseBlockAI and Acoustic Fence technology keep out audio distractions
- Simplified setup with USB camera support and Ethernet cabling for microphones
- Multiple camera options

### IDEAL FOR

Medium and large rooms needing a premium speaker tracking camera

### EagleEye Director II

- Incredible details and natural colours in full 1080p60
- 12 x optical zoom and wide viewing range with pan and tilt provide extra coverage without loss in quality
- Easy to install with Poly group video solutions or as a USB camera

### IDEAL FOR

Medium to large rooms that need to connect to Microsoft Teams

### G85-T

- Designed to deliver clutter-free Teams meeting room experience
- TV-production-like speaker tracking with EagleEye Director II video conferencing camera
- 8-inch touch console also supports HDMI content and USB port
- Add a certified Trio phone or Poly-tested DSP compatible device

### IDEAL FOR

Medium rooms that need to connect to Microsoft Teams

### G40-T

- Designed to deliver clutter-free Teams meeting room experience
- Dynamic video with speaker tracking camera with 12x optical zoom
- Powerful Poly signature audio covering 2ft/6m mic pickup range
- 8-inch touch console also supports HDMI content and USB port

### IDEAL FOR

Small to Medium rooms that need to connect to Microsoft Teams

### G10-T

- Designed to deliver clutter-free Teams meeting room experience
- Designed to work with existing Microsoft Teams Rooms and Skype for Business certified audio and video devices
- Powerful Poly signature audio covering 12ft/3.6m mic pickup range
- 8-inch touch console also supports HDMI content and USB port

# CONFERENCE ROOM SOLUTIONS

## IDEAL FOR

Huddle rooms that need an all-in-one video solution

### Studio X30

- Cloud video apps such as Zoom and Microsoft Teams built right in - no PC or Mac required
- Use open standards to connect to nearly any cloud video service
- Block out audio distractions with NoiseBlockAI
- Production-quality camera framing and tracking
- Single display

## IDEAL FOR

Small to mid-size rooms that need all-in-one video conferencing

### Studio X50

- Connect to your desk phone, PC/Mac or Cloud video apps such as Zoom and Microsoft Teams built right in - no PC or Mac required
- Use open standards to connect to nearly any cloud video services
- Daul display support to see people and content in full size
- Production quality camera framing and tracking

## IDEAL FOR

Bringing the world into your large conference rooms

### Studio X70

- Dual 4K lenses
- Two-way stereo speakers, aluminum cone tweeters, and advanced bass ports
- AI-driven camera array
- NoiseBlockAI noise reduction technology
- Seamless native experience on leading cloud video services

## IDEAL FOR

Huddle rooms that need to connect to multiple VaaS platforms over USB

### Studio USB

- Designed to deliver clutter-free Teams meeting room experience
- TV-production-like speaker tracking with EagleEye Director II video conferencing camera
- 8-inch touch console also supports HDMI content and USB port
- Add a certified Trio phone or Poly-tested DSP compatible device

## IDEAL FOR

Professionals who want to stand out with exceptional optics

### Studio P15

- Show up and stand out with exceptional optics and powerful audio
- Automatic camera framing lets you move with confidence
- Up and running in seconds with easy set up

## IDEAL FOR

Users who want the simplicity of a single integrated device

### Studio P21

- Single device includes display, camera, microphone, speakers and lighting
- Pro-grade display offers incredible clarity, brightness, and vibrant colors
- Use any video app with simple USB connectivity to your PC or Mac
- Command your personal workspace with Poly Lens Desktop
- Robust Poly Lens cloud management for IT

# IT TOOLS

## SOFTWARE

**IDEAL FOR**

Enterprises needing cloud-based insights and management of Poly's latest voice and video devices

**Poly Lens**

- Enterprise needing cloud-based management and insights of Poly's entire headset portfolio

**IDEAL FOR**

Enterprises needing cloud-based management and insights of Poly's entire headset portfolio

**Plantronics Manager Pro**

- Policy based deployment ensures a consistent user experience
- Centralised management of inventory and software control for maximum up time performance
- Adoption and quality reports ensure you get the most out of the investment

**IDEAL FOR**

Any organisation that needs a private all-in-one voice, video and content meeting platform

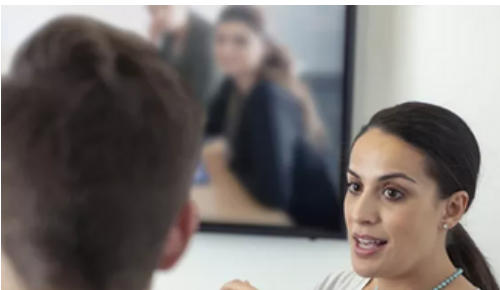

**Realpresence Clariti**

- Flexible model allows on-premises, cloud, or hybrid deployment
- Easy licensing that scales with your needs and usage
- Includes device management, call signaling, firewall traversal, multi-point, and software for desktop and mobile

**IDEAL FOR**

Any organization wanting to enable video conferencing to join Microsoft Teams

**RealConnect**

- Cloud-based video interoperability service connecting endpoints and software apps into Microsoft Teams
- Leverage standards-based video endpoints to make the most of your investment
- Simplified meeting entry via Exchange and Outlook integration with one-touch dial

## HEADSETS

DESIGNED TO

Provide users with a comfortable all-day communication solution

UH34

- Flexible Connectivity
- Native integration
- Excellent audio performance
- All-day wearing comfort
- Replacement soft leather (UH34) ear cushions or foamy ear cushions (UH34 Lite)

DESIGNED TO

Be a USB wired headsets for UC, office and call center professionals

UH36

- Simple and Flexibility Connectivity
- Noise- Canceling Microphone
- Unparallel Audio Experience
- All-day-ease
- Higher Reliability

DESIGNED TO

Be a premium USB headset that bridges your daily devices into one

UH38 **NEW**

- USB and Bluetooth connection
- Dual noise-cancelling microphones
- Acoustic Shield Technology
- Dual voice modes
- Dual busylights

DESIGNED TO

Provide vividness and clarity to you and those you talk to

BH72 **NEW**

- Professional ole wolff diaphragm
- Innovative acoustic shield technology
- Noise-cancellation microphones
- Easy charging and long-time working

DESIGNED TO

Defend your work and boost your productivity

BH76 **NEW**

- HI-FI level audio codec APTX
- Intelligent dynamic ANC
- Innovative acoustic shield technology
- Noise-cancellation micrphones
- Seamless UC experience

DESIGNED TO

Work seamlessly with major UC platforms

WH62

- Acoustic Shield Technology
- Optima Audio Experience
- All-Day Wearing Comfort
- Built-In Ringer
- Multiple Device Connection

# VOICE SOLUTIONS

## HEADSETS

DESIGNED TO

Work seamlessly with major UC platforms

WH63

- Plug-and-Play
- Easy Management
- Customizable Busy Light
- Multiple Device Connection
- Built-In Ringer

DESIGNED TO

Ease the management of business communication demands

WH66

- Touch Screen LCD
- Multiple Device Connections
- Speakerphone Mode
- Built-In USB Hub
- Qi Wireless Charger

DESIGNED TO

Ease the management of business communication demands

WH67

- Multiple Device Connections
- Speakerphone Mode
- Built-in USB Hub
- Qi Wireless Charger
- Optima Audio Experience

# VOICE SOLUTIONS

## DESKTOP PHONES

DESIGNED TO

Be the main contact for multiple numbers or companies

T43U

- Optima HD Voice
- Dual USB Ports
- Unified Firmware
- Gigabit
- Opus Codec

DESIGNED TO

Provide users with high-definition voice quality

T46U

- Yealink Optima HD voice
- Dual USB Ports
- Acoustic Shield
- Unified Firmware
- Gigabit
- Expansion Module
- Opus Codec

DESIGNED TO

Offer the ultimate range of features, functionality and performance

T48U

- HD Audio
- Richer Functionality
- Easy To Use & Easy To Deploy
- SILK Speech Codec Support

DESIGNED TO

Be a cost-effective USB phone for Microsoft Teams

MP50

- 4-inch Multi-touch screen
- HD Audio
- HAC
- Bluetooth
- USB Hub
- Busylight
- Plug-and-play

DESIGNED TO

Be a cost-effective option to enable efficient collaborations

MP52

- Exceptional HD sound with wideband technology
- Up to 4 simultaneous external calls
- Up to 2 simultaneous calls per handset
- Up to 5 DECT cordless handsets
- Up to 5 VoIP accounts

DESIGNED TO

Be an entry-level desk phone for Microsoft Teams

MP54

- 4-inch Multi-touch screen
- HD Audio
- Teams Button
- Hybrid Mode
- Efficient provisioning and management

# VOICE SOLUTIONS

## DESKTOP PHONES

DESIGNED TO

Be a smart business phone for Microsoft Teams

MP58

- 7-inch Multi-touch screen
- HD Audio
- Teams Button
- Adjustable display
- Support Bluetooth handset

DESIGNED TO

Be a Teams-tailored IP phone for Microsoft Teams

MP56

- Android 9 OS
- Optimal HD audio, Yealink Noise Proof Technology
- Dedicated Microsoft Teams button
- Rich Functionality
- Efficient Provisioning and Management

DESIGNED TO

Be a smart video phone for executives and teleworkers

VP59

- 8-inch Multitouch Screen
- HD Audio
- Office 365
- Android 7.1 OS
- Dual-band Wi-Fi
- Bluetooth Headset

DESIGNED TO

Be an entry-level wireless DECT IP phone for small business

W52P

- Exceptional HD sound with wideband technology
- Up to 4 simultaneous external calls
- 5~10 hours talk time, 100 hours standby time
- Up to 5 VoIP accounts

DESIGNED TO

Be a high-performing cordless SIP phone system

W53P

- Up to 8 concurrent calls
- Up to 8 SIP accounts
- Up to 200-hour standby time (in ideal conditions)
- Up to 18-hour talk time (in ideal conditions)

DESIGNED TO

Be a high-performing cordless SIP phone system

W60P

- 2.4" 240 x 320 color screen with intuitive user interface
- Up to 8 DECT cordless handsets
- Up to 30-hour talk time
- Noise Reduction System

# VOICE SOLUTIONS

## DESKTOP PHONES

DESIGNED TO

Provide organizations who require wireless coverage

W80

- Up to 100 parallel calls
- Up to 30 base stations
- Security & Stability
- Efficient Provisioning & Unified Management
- Easy Setup and Deployment

# VOICE SOLUTIONS

## CONFERENCE PHONES & SPEAKERPHONES

IDEAL FOR

Small to medium boardrooms that require an IP phone solution

CP920

- Superior audio quality
- Yealink Noise Proof Technology
- Built-in 3-microphone array
- 5-way conference call

IDEAL FOR

Small to medium boardrooms that require an IP phone solution

CP930

- Up to 24-hour talk time
- Optima HD voice, full duplex technology
- 5-way conference call
- Upgrade over the air
- Requires W60B

IDEAL FOR

Medium to large boardrooms that require a high performance device

CP960

- Yealink Noise Proof Technology
- Optima HD voice, full duplex technology
- 6-meter and 360-degree microphone pickup range
- Hybrid UC meeting

IDEAL FOR

On-the-go professionals and meetings of up to 4 people

CP700

- 360-degree voice pick-up ability
- 2 omnidirectional microphones
- HD voice quality
- 9-hour talk time

IDEAL FOR

On-the-go professionals and meetings of up to 6 people

CP900

- Yealink HD voice quality
- 6-microphone beamforming array
- 12-hour talk time
- 360-degree voice pick-up ability

BYOD & ROOM SOLUTIONS

# VIDEO SOLUTIONS

## BYOD & ROOM SOLUTIONS

IDEAL FOR

Small & huddle meeting rooms, offering sharp imagery

UVC30 4K USB Camera

- Superb Image Quality
- Smooth and Precise Auto-Framing, API for Data Analysis
- Ultra Expansive Field of View
- Easier and Smooth PTZ Control

IDEAL FOR

Small & huddle meeting rooms with an intuitive Teams interface

UVC30-CP900-BYOD

- All-in-One Design, Plug and Play
- Long Endurance
- Cost-effective
- Simple Deployment

IDEAL FOR

Small & huddle rooms and work from home scenarios

UVC34 Video Bar **NEW**

- USB video bar
- Auto framing
- AI face enhancement
- Wide-angle lens
- Electric lens cap
- Remote device management

IDEAL FOR

Small & huddle meeting rooms, offering premium audio and video

UVC40 Video Bar

- USB video bar
- 20MP camera
- 133° super-wide-angle lens
- Built-in Wi-Fi, remote device management
- Built-in 8 MEMS microphone arrays

IDEAL FOR

Small & huddle meeting rooms that require a Teams interface

VC210

- Android 9.0 OS
- Ultra HD 4K Camera
- Wide-angle 120° FoV
- 3x e-PTZ Camera
- Auto Framing

IDEAL FOR

Focus and small meeting rooms that require a dedicated MTR system

MeetingBar A20

- All-in-one meeting bar
- Smart Teams collaboration
- 133-degree field-of-view AI camera
- Ultra HD full-duplex voice
- Quick setup plug-and-play

# VIDEO SOLUTIONS

## ROOM SOLUTIONS

IDEAL FOR

Medium meeting rooms that require a dedicated MTR system

MeetingBar A30

- One Cable Technology
- 3-Microphone Array
- Yealink Camera Control Plug-in
- Auto Framing
- Wireless Content Sharing
- Device Management

IDEAL FOR

Focus and small meeting rooms that require a dedicated MTR system

MVC400

- Easy Deployment
- 20 MP Camera
- Auto FramingSpeaker Tracker
- Electric Lens Cap
- 8x e-PTZ Camera
- Device Management

IDEAL FOR

Medium meeting rooms that require a dedicated MTR system

MVC640

- One Cable Technology
- 3-Microphone Array
- Yealink Camera Control Plug-in
- Auto Framing
- Wireless Content Sharing
- Device Management

IDEAL FOR

Large meeting rooms that require a dedicated MTR system

MVC840 **NEW**

- Featured 4K sensor and 12x optical zoom, the UVC84 camera achieves a gorgeous video experience
- Yealink VCM34 array microphone supports a 20ft (6-meter) / 360° voice pickup range and works with the Yealink Soundbar

IDEAL FOR

Medium and large rooms that require a dedicated MTR system

MVC860 **NEW**

- One Cable Technology
- Presenter Tracking
- Speaker Tracking
- Auto-Framing
- Wireless Content Sharing
- Device Management
- Camera Control Plug In

IDEAL FOR

Extra-large meeting rooms that require a dedicated MTR system

MVC940

- One Cable Technology
- Multiple Cameras
- Yealink Camera Control Plug-in
- Camera Layout Adjustment
- Wireless Content Sharing
- Device Management

# VIDEO SOLUTIONS

## ROOM SOLUTIONS

IDEAL FOR

Utilizing and managing your meeting spaces with ease

RoomPanel

- 8-Inch 10-Point Interactive Panel
- Anti Fingerprint Screen
- High Visibility LED Bars out Room Status
- Ambient Light & Proximity Sensor Embedded
- PoE or DC Power

# VIDEO SOLUTIONS

## MICROSOFT TEAMS ACCESSORIES

IDEAL FOR

Combining the hardware and software to fully improve audio quality

VCM34

- Built-in 3-microphone array
- 20ft (6m) and 360° voice pickup range
- Yealink Noise Proof Technology
- Power over Ethernet (PoE)
- Up to 4 units can be cascaded

IDEAL FOR

Providing a clearer and smoother audio experience

VCM38

- Premium audio
- 360-degree voice pickup
- 8 microphone arrays
- Up to 8 units used
- Ceiling/suspension installation
- PoE

IDEAL FOR

Awarding better sound in video conferencing rooms

MSpeaker II

- Two built-in speakers
- Providing powerful output to cover middle and large meeting rooms
- Yealink Noise Proof Technology
- Supports PoE
- Supports 3.5mm AUX input

IDEAL FOR

High-quality wireless content sharing with just one tap

WPP20

- One-click presenting
- 802.11 Wi-Fi & 1080p30fps
- Conference Management
- Intuitive Remote Control
- Multipoint FHD Sharing
- AirPlay
- Meeting Recording

IDEAL FOR

Supporting the switch between MTR and other UC platforms

BYOD Extender

- Plug-and-play MTR BYOD Extender for easy and effective meetings
- One CAT5e cable connection, easy to deploy and manage
- Up to 100m endurance to keep productivity going in small to large rooms

IDEAL FOR

Catching every detail in medium and large rooms

UVC84

- 4K UHD
- 12x optical zoom
- Auto-framing
- PTZ control
- Audio scalability
- Privacy protection

# VIDEO SOLUTIONS

## ROOM SOLUTIONS & ROOM PERIPHERALS

IDEAL FOR

Focus and small meeting rooms that require a Zoom Rooms Kit

ZVC400

- Easy Deployment
- 20MP Camera
- Auto Framing
- Speaker Tracking
- 8x e-PTZ Camera

IDEAL FOR

Medium and large meeting rooms that require a Zoom Rooms Kit

ZVC500

- Simple to Deploy, Easy to Use
- Premium Audio and Video Meeting Experience
- Manage Your Devices Remotely
- Auto Framing
- 40-foot (12-meter) voice pickup radius

IDEAL FOR

Medium and large meeting rooms that require a Zoom Rooms Kit

ZVC800

- Simple to Deploy, Easy to Use
- Premium Audio and Video Meeting Experience
- Manage Your Devices Remotely
- 40-foot (12-meter) voice pickup radius

IDEAL FOR

Seamless collaboration through wireless content sharing

RoomCast

- Participants can cast their screens to a TV simultaneously through the Yealink WPP20, Miracast, Airplay and Google Cast
- Featuring annotation & virtual whiteboarding

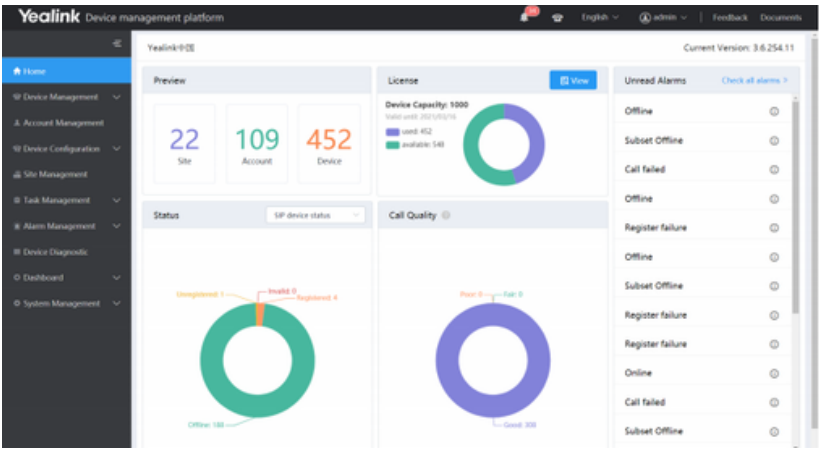

# SOFTWARE

## IT TOOLS

### Yealink Device Management Platform

Yealink’s powerful GUI-driven Device Management Platform delivers a comprehensive set of tools for implementing multiple Yealink devices, which is designed to solve the complexities of provisioning, management, call quality control and troubleshooting. The solution owns system-wide oversight and the ability to drill down into specific needs for various regions, user groups or even a particular device model. The devices can be deployed automatically in the platform once the network is connected, which abandons the expensive traditional deployment. In addition, the platform supports device configuration, firmware upgrading, device resource management, and all these can be pushed to your terminal devices as a regular task whenever you need. For the enterprise administrators, they are not only allowed to view and check the real-time analysis of device working state and call quality, but also to troubleshoot problems timely with the on-line diagnosis feature.

- Web-based platform, integrating several functions into a whole
- Group devices according to different districts, departments and functions
- Control all of your devices remotely on the platform
- Execute task at once or set timing task
- Multiple diagnostic methods, ensuring that the call experience always meets requirements
- Real-time business and quality analysis, alarm notification when the device abnormal

### Yealink Meeting

Yealink Meeting is a distributed cloud-based service platform tailored for multi-way video conferencing collaboration. As a powerful all-in-one service platform, Yealink Meeting not only brings MCU, registrar server, traversal server, meeting management server, meeting control server, enterprise directory server, GK&H.460 server and so on together, but also seamlessly integrates with a whole series of video conferencing products. Being in an advanced distributed architecture, Yealink Meeting is distributed with multiple service nodes around the world with better expandability, and it also owns multi-point and multi-machine hot standby which are functioned as a failover mechanism to provide reliability in system configuration. Characterized with rich functions, it provides 1080P full encoding and decoding capability and multi-groups and large-capacity conferences, scheduled conference, meet-now conference, etc. Ease-of-use, simple deployment, easy maintenance, good security and reliability, Yealink Meeting delivers the specific solutions to address your unique needs for an enterprise or a service provider.

- All-in-one, brings MCU, registrar, directory, traversal server, meeting management server and GK&H.460 server together
- Advanced cloud-based architecture with multiple worldwide service nodes
- 1080P full encoding and decoding capability
- Supports a Standard SIP/H.323 Endpoint dial server IP to join meeting directly
- Interoperability with Microsoft Teams for audio, video, and content sharing
- Supports RTMP Live, a large number of participants can watch the live broadcast simultaneously
