

The CTOUCH Canvas stands out in every meeting room!
Its unique CTOUCHABLE™ design invites you to instantly touch the screen. Discover the ultra-fine pen-on-paper like writing experience. It's designed for business and meets the highest security standards. This touchscreen platform is the pinnacle of all-in-one collaboration boards.

Beware! It's love at first touch.

Take team collaboration to the next level!

Advances in cloud collaboration, tooling and conferencing systems are fast pacing each other. Want to get into flow with your team? The Canvas' unique CTOUCHABLE™ design invites you to interact with the content on the screen. From the coloured rubber and soft-touch textile frame, to the touchable buttons and intuitive menu. It all works together to foster energising meetings. Bring innovation and teamwork to life!

Easily upgrade with CTOUCH BRIX

The CTOUCH Canvas is a modular touchscreen. It can be upgraded over time with our collaboration solutions. We call them BRIX. Ready to dive into Microsoft Teams meetings? Or want to bring Zoom Rooms into your meeting space? Simply fit the CTOUCH Canvas with a BRIX module and you're set to go. With the CTOUCH Canvas you are prepared for the workplace of the future!

**CTOUCHABLE™
DESIGN**

**OPTICAL BONDED
INGLASS™ TECHNOLOGY**

**BRIX
COMPATIBLE**

**80 WATTS JBL
SPEAKERS +
MICROPHONE ARRAY**

**3 YEAR
WARRANTY**

- ✓ **Ultra-fine writing experience**

Write, sketch and annotate like never before! The optical bonded InGlass™ touch technology delivers you a high-precision pen-on-paper-like writing experience. Simply use the passive pen or your finger and write or erase as fast as you can. Creating ideas together? No sweat! Write smoothly with up to 4 users simultaneously.
- ✓ **Security by design**

The Canvas is designed for business grade security. This is why it comes without an operating system. No software updates are needed. No data is stored on the display. And no apps can be installed that could leak your data or grant access. Want to double-down on security and lock the ports? No problem! Data, video ports and the settings menu can be disabled or locked.
- ✓ **Business connectivity & management**

You are in full control! The USB-C port provides easy one-cable presenting for video, touch, charging (100W) and internet. For management and local control, the RS232 interface and IP management is available. Want to integrate the Canvas in your enterprise network? Combine it with a CTOUCH BRIX or Windows 10 OPS fitted with standard MDM and security suites.
- ✓ **Full-room audio with the integrated JBL® 80 Watt speakers and microphone array**

Amaze your audience and immerse them with the JBL® speakers. They deliver Live-stage (virtual) Surround sound. Even in the back of the room the sound is impressive. Want to collaborate with video conferencing? You are already set to talk with the built-in far field microphone array.
- ✓ **Available configurations and optional modules**

Upgrade your CTOUCH Canvas with these optional modules. Configure your collaboration platform and choose the options that suit you best.

The Canvas frame

- Rugged rubber edge colours:
- Regal Orange - Electric Blue - Midnight Grey
 - Soft-touch textile with touch-able controls

Canvas Circularity Passport

- Detailed material and energy usage
